DAILY

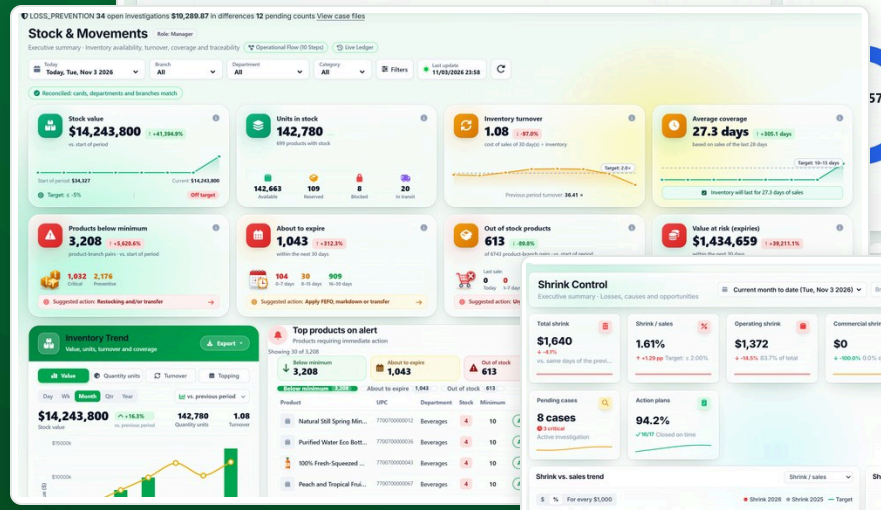

DAILY — Operational supervision, control and management for retail

Inventory, sales, shrink, loss prevention, staff and purchasing in a single system.

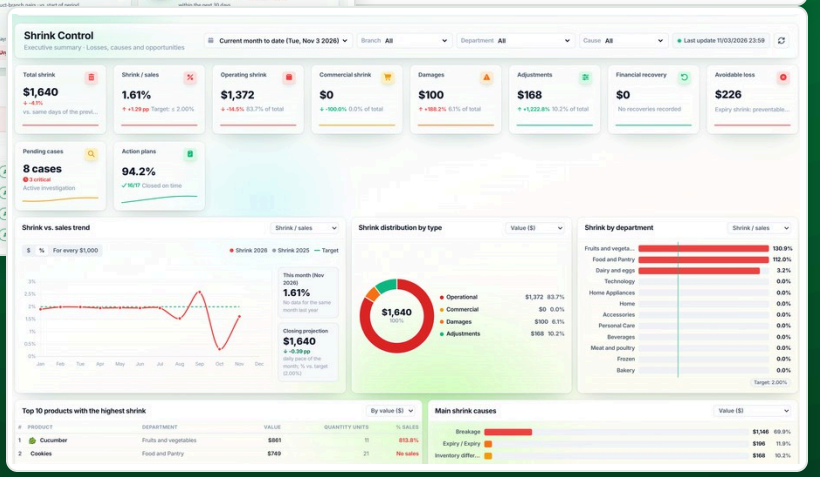

Real screens · English interface · demo data

TODAY · Daily Operations

Inventory

Shrinkage & Waste

THE PROBLEM

Illustrative scenario

What erodes margin in a retail chain today

Undetected losses

Found too late to act on

Physical ≠ system

Stockouts, overbuying and lost sales

Expired products

Waste and customer risk

Mismatched staffing

Queues at peak, idle hours off-peak

Manual processes

Spreadsheets, signatures, supervision hours

Fragmented information

Every area with its own numbers

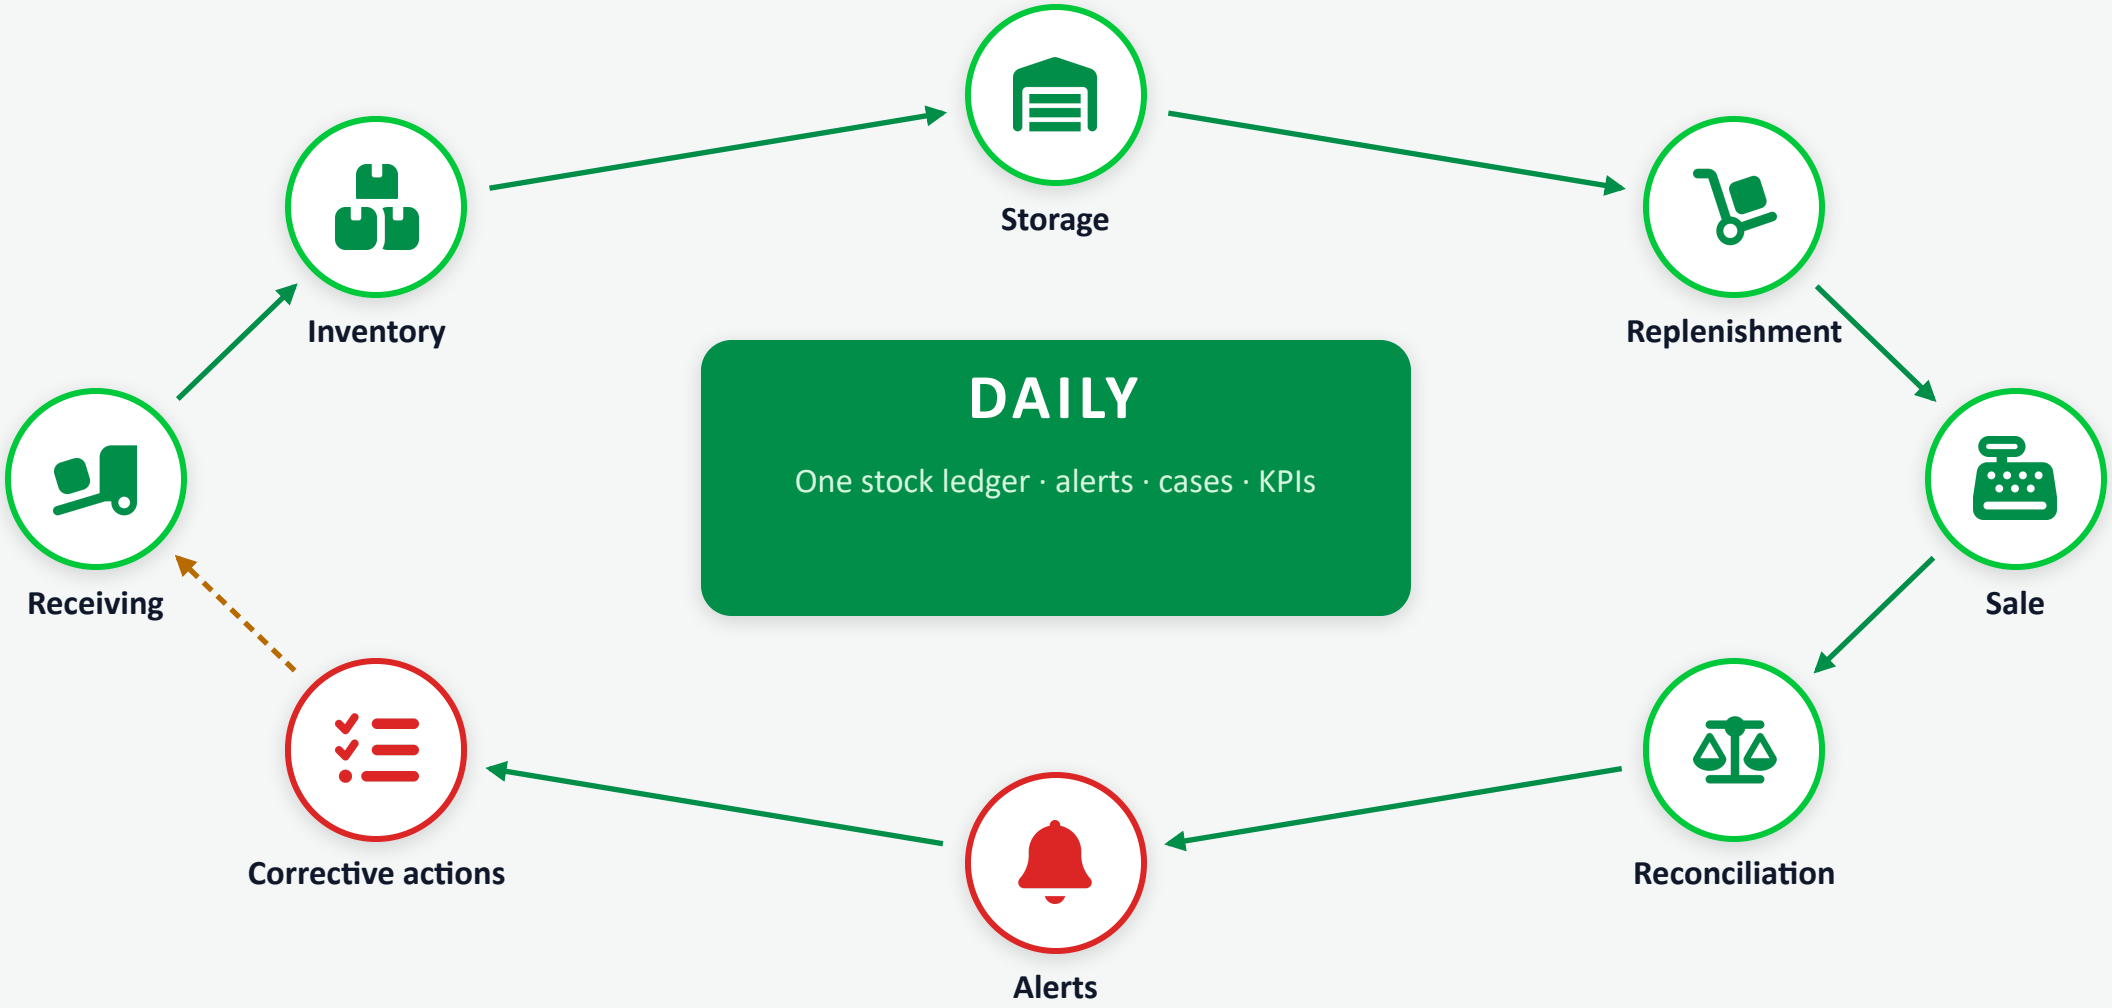

Cases with no owner

Alerts nobody closes

Margin lost without knowing where or why

Available feature

How DAILY connects the operation

THE PLATFORM

Available + in development

Ten work areas, one shared data set

1. Planning & Procurement

MRP, suppliers, orders

2. Inventory & Warehousing

Stock, ledger, reconciliation, locations

3. Sales & Profitability

Sales, margin, POS, orders

4. Dispatches & Returns

Dispatches, customer returns

5. Quality & Expiration

Lots, FEFO, cold chain, recalls

6. Shrinkage & Waste

Recording, approval, causes

Partly in development

7. Loss Prevention

Cases, mobile device control, counts

8. Workforce Operations

Schedules, attendance, tasks

Partly in development

9. Reports & Analytics

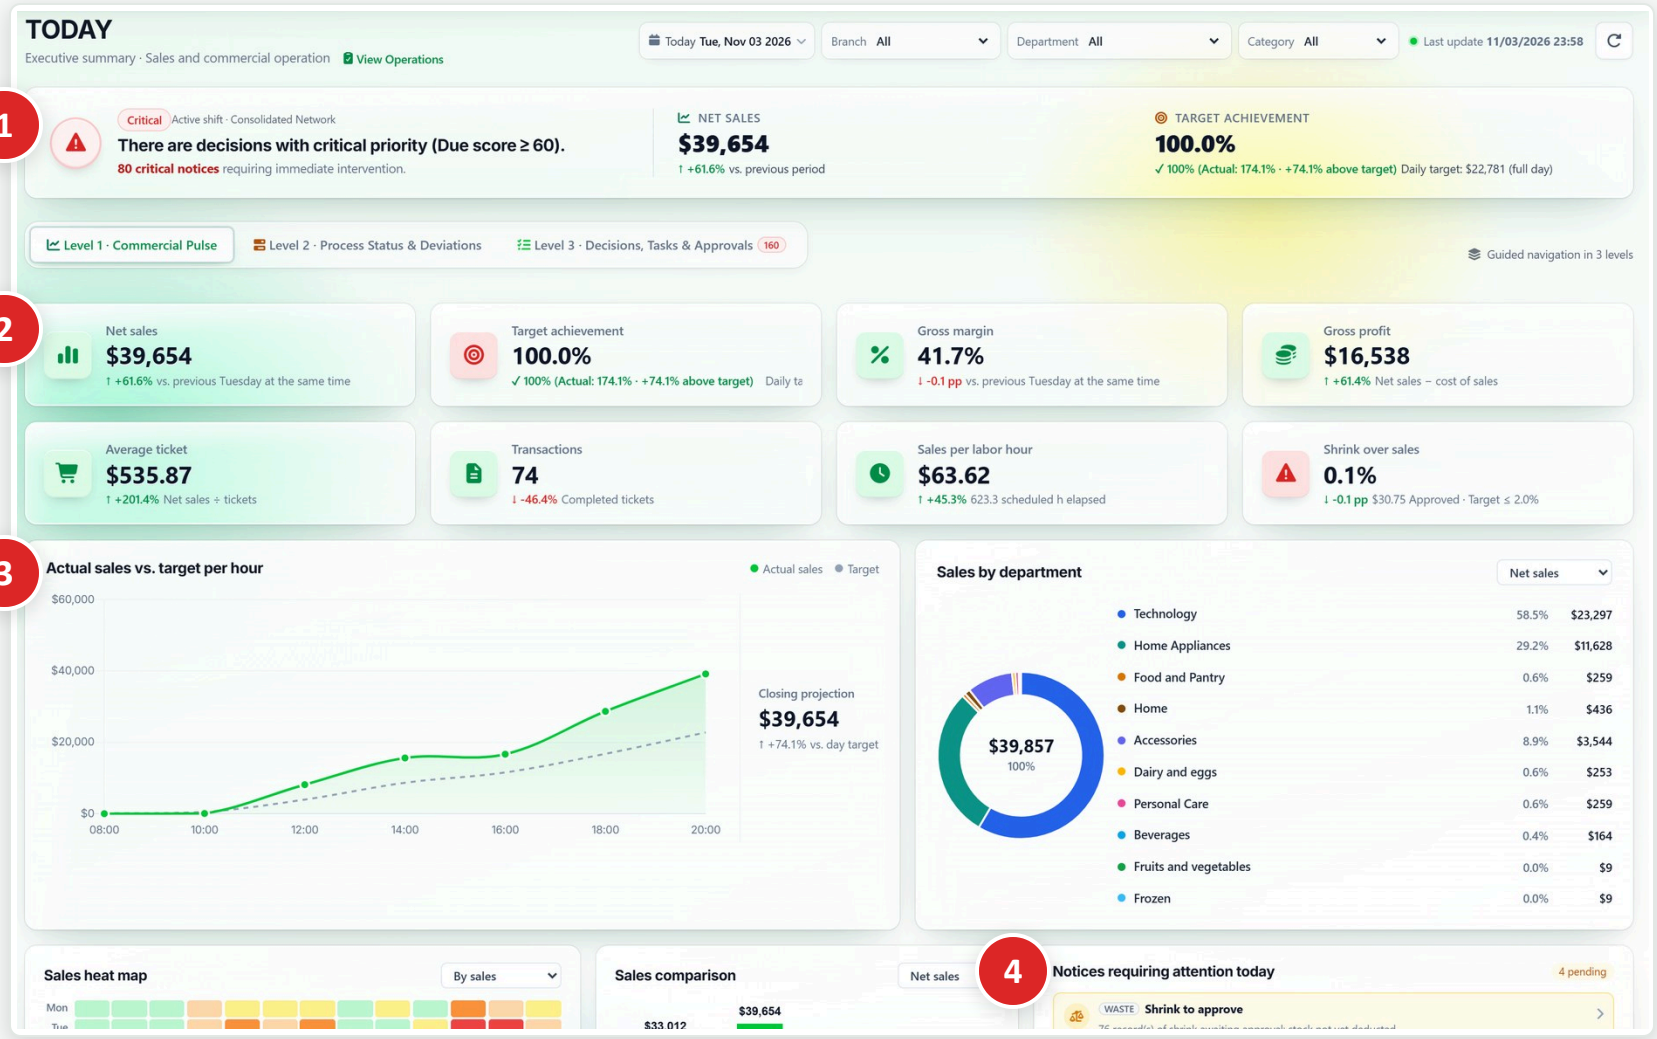

Executive report, reports

10. Administration

Branches, users, access, audit

Available feature

TODAY: how the operation is doing, hour by hour

1 Critical decisions

What needs intervention this shift.

2 KPIs

Sales, target, margin, ticket and shrink.

3 Actual vs. target by hour

With a projected close for the day.

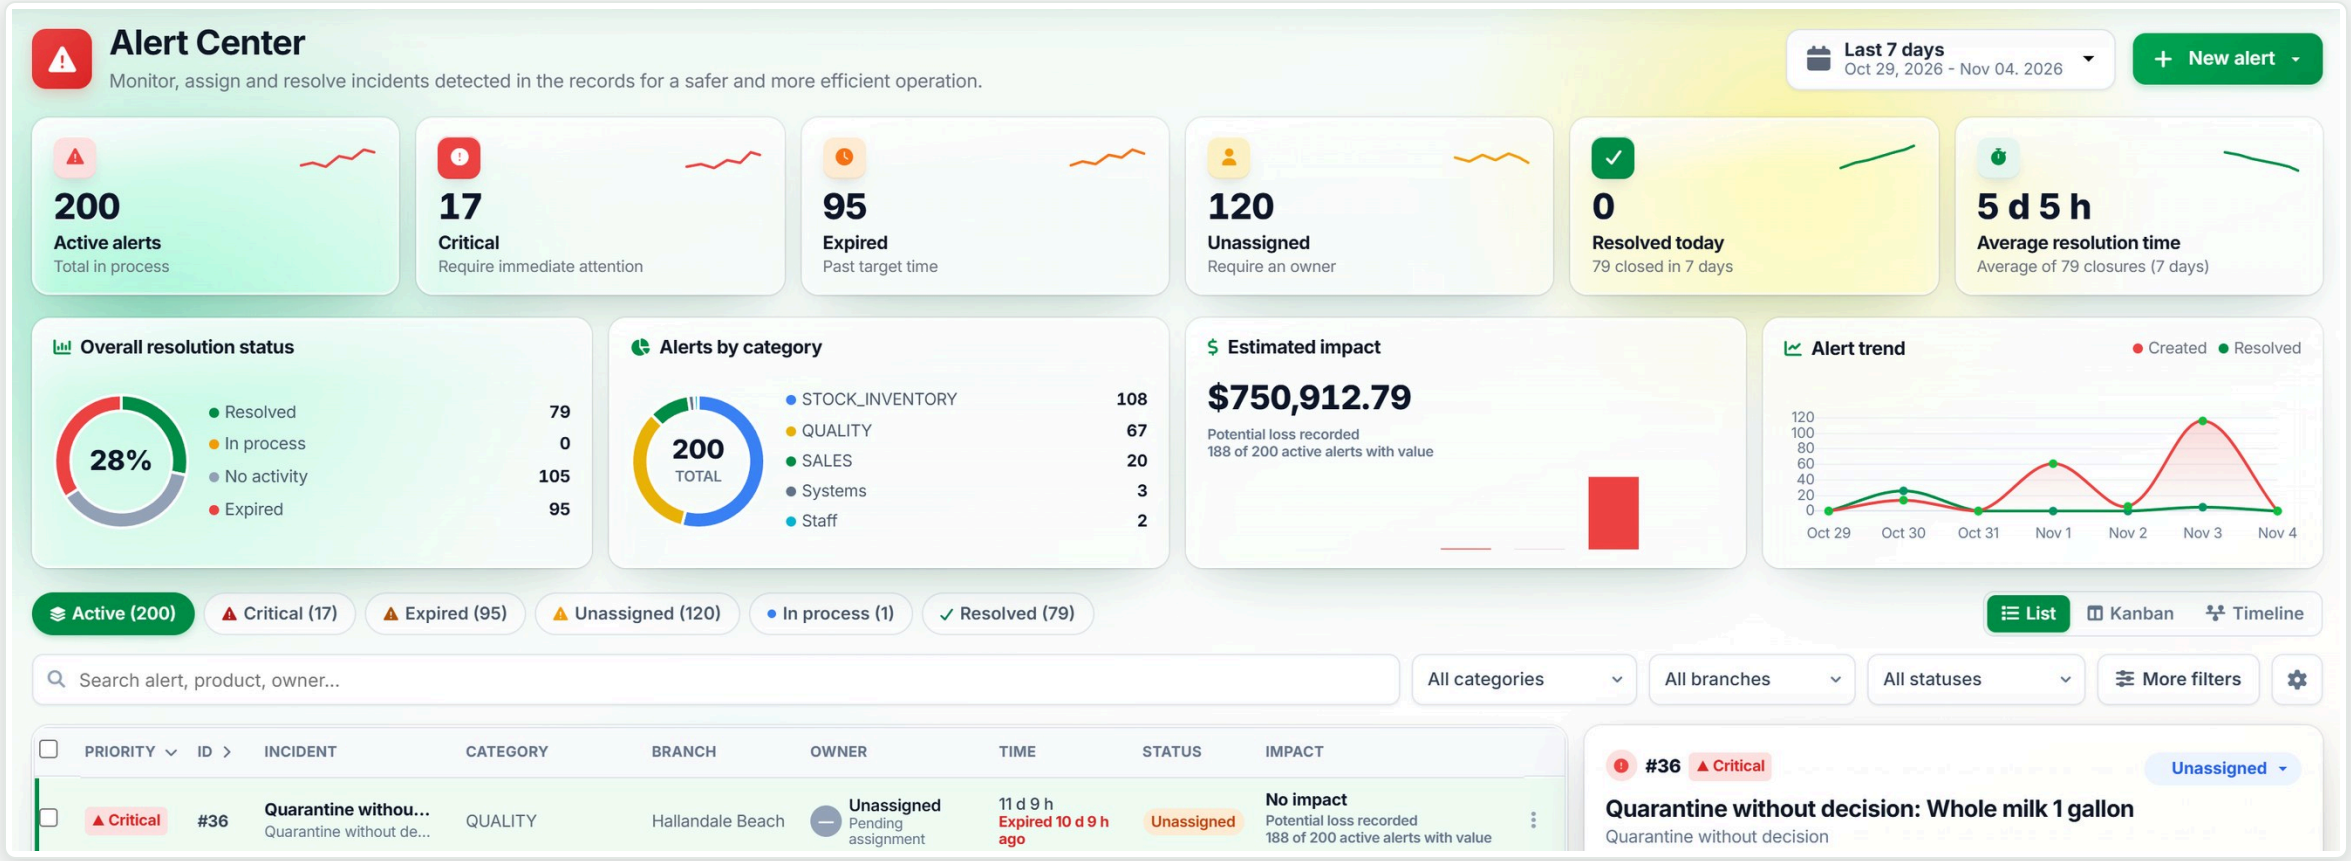

4 Actionable notices

Shrink to approve, alerts and overdue tasks.

Available feature

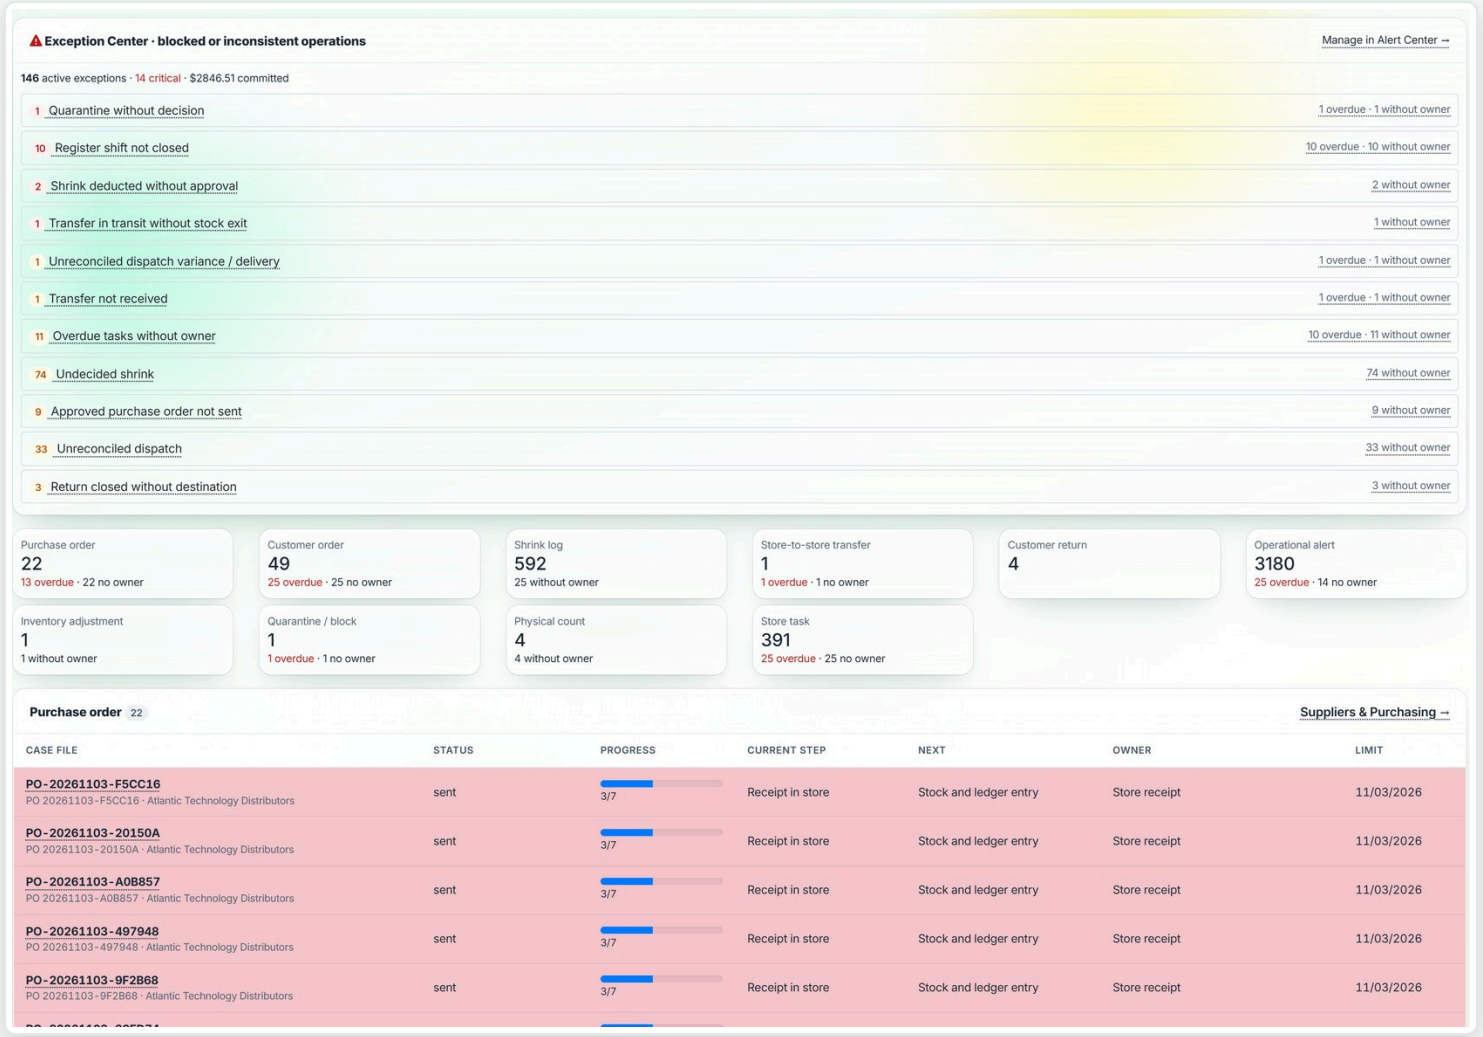

Every deviation with an owner, a deadline and an impact

Detection → Assignment → Investigation → Validation → Closure

Available feature

Every open document: which step it is in and who has it

1 Exception Center

Blocked or inconsistent operations, with value at stake.

2 Ten case types

Purchase, order, shrink, transfer, return, adjustment, count, task and more.

3 Step, owner and deadline

Overdue items are flagged in red.

Progress comes from the real state of each document.

CASE 1 · HIGH-VALUE PRODUCT

1 Valuated Inventory Ledger

Inflows, outflows and balance, at cost.

2 Source document

POS ticket, receipt or adjustment: one click.

3 Findings

Possible duplicates, shrink with no case, off-hours.

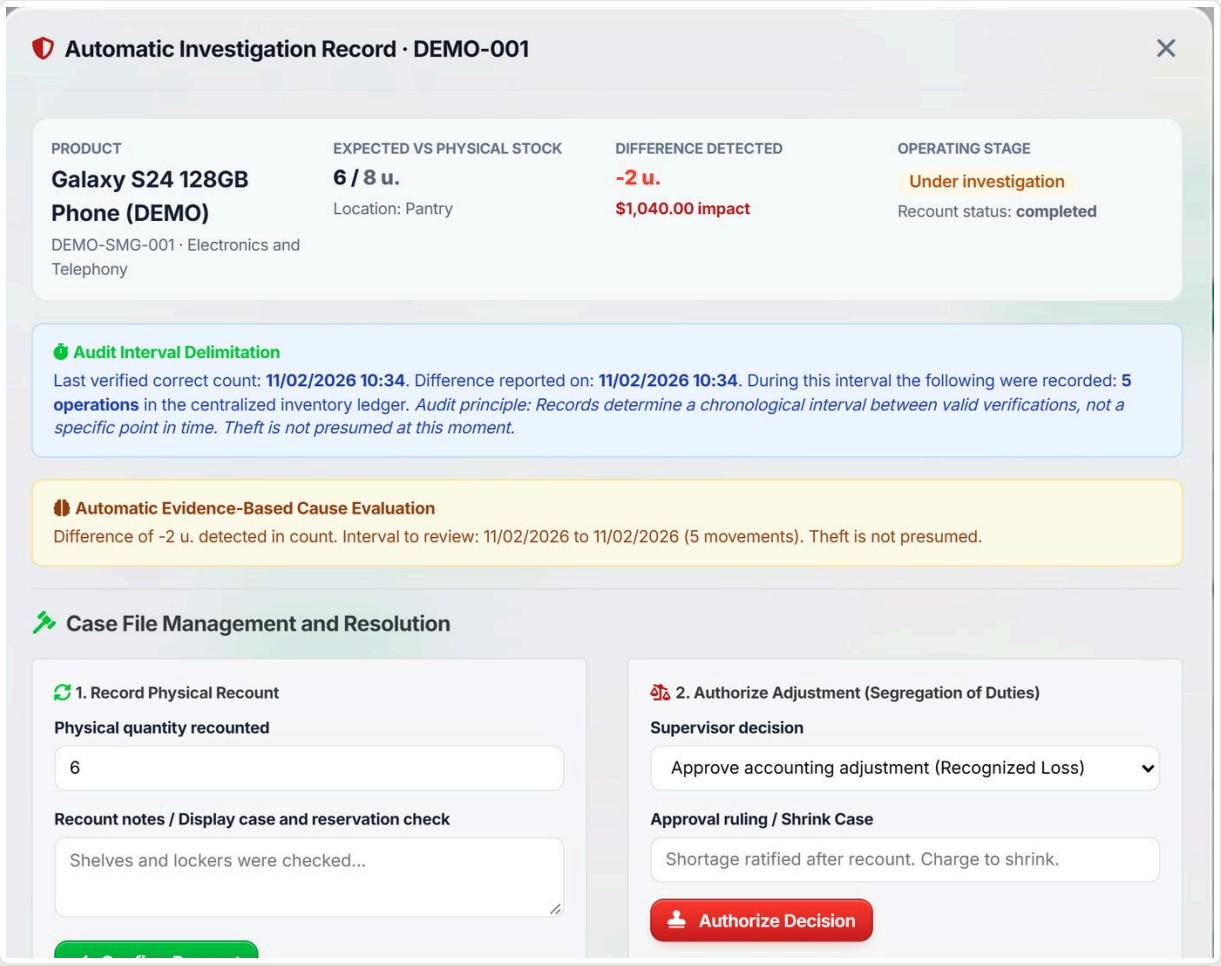

4 Sealed history

Integrity verification on demand.

Available feature

Investigation record: interval, causes and recount

1. Detect | 2. Review | **3. Investigate** | 4. Resolve

1 Audited interval

From the last verified count to the current one, with the movements in that window.

2 Evidence-based evaluation

Cause hypotheses; it does not presume theft.

3 Independent recount

Confirms or rules out the difference.

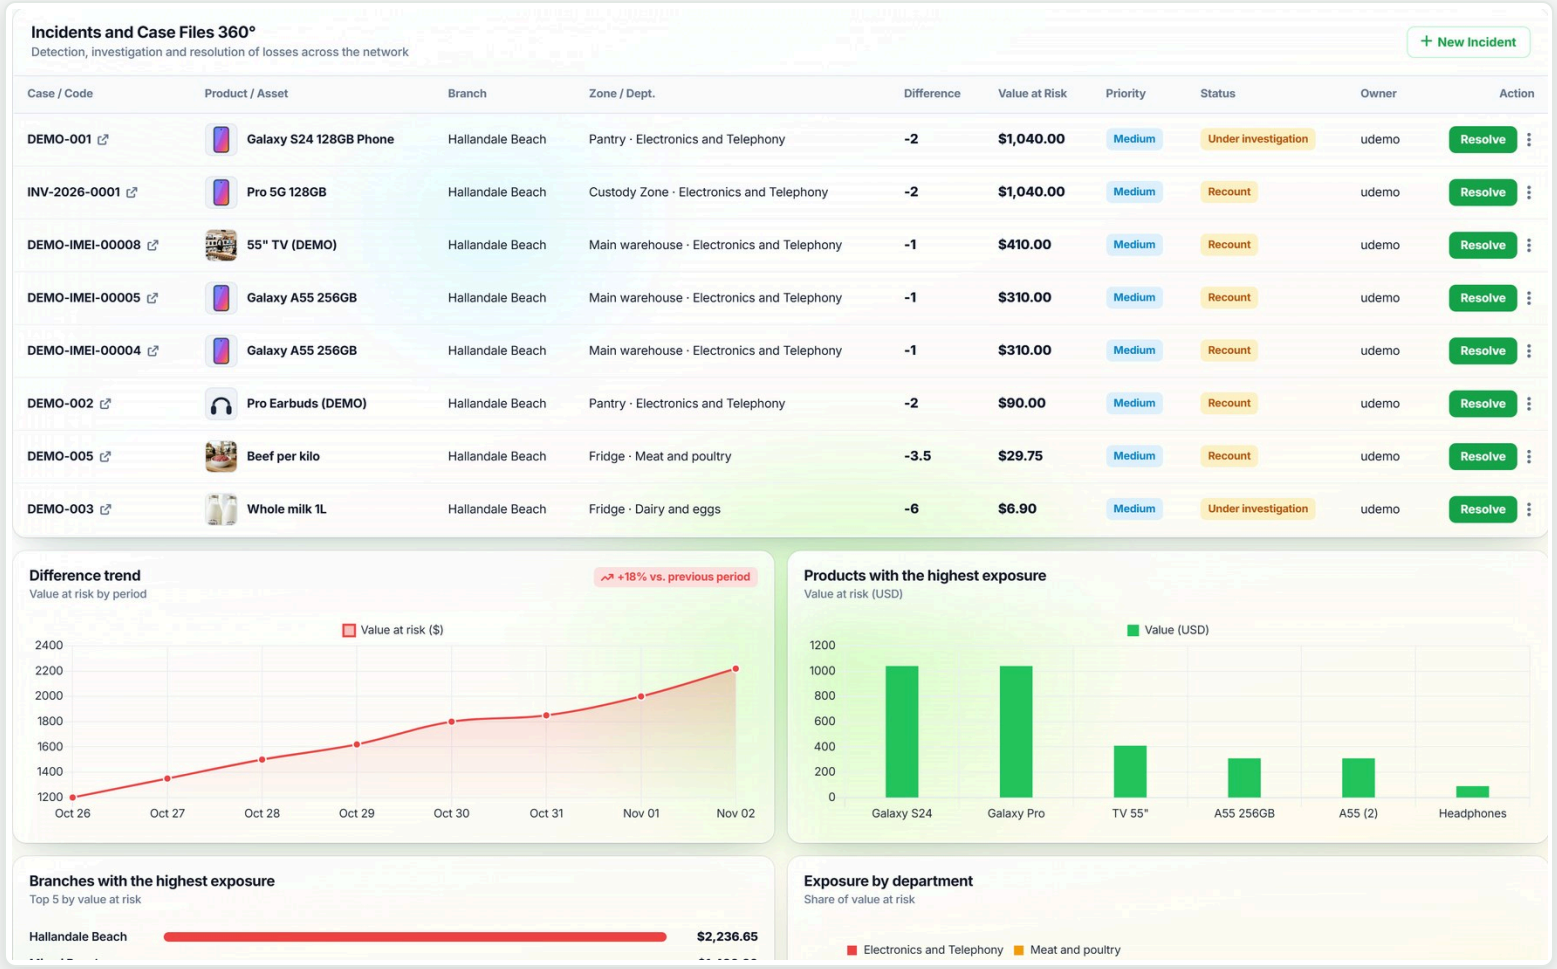

4 Separate authorization

A different supervisor approves the adjustment.

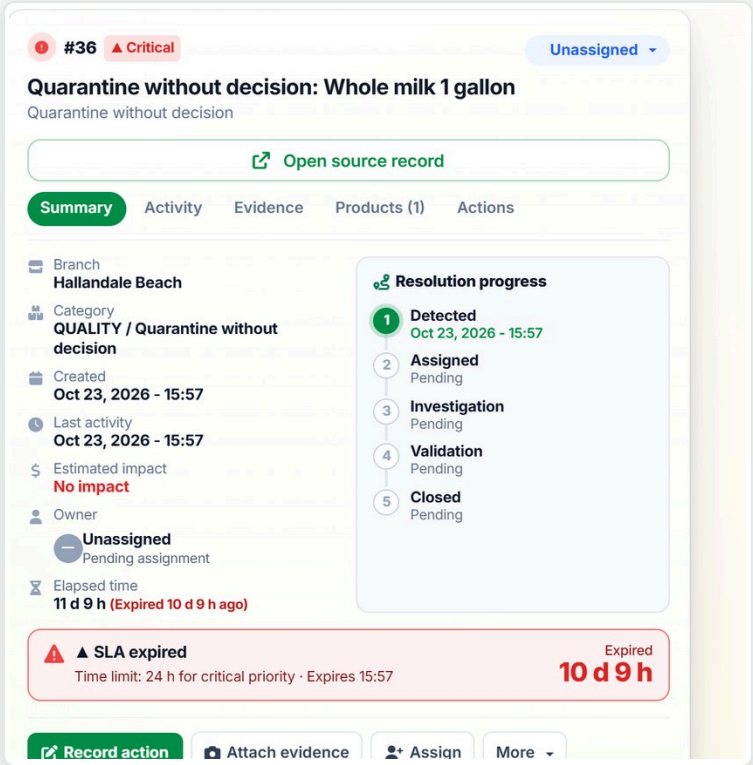

Available feature

The case stays in a file until it is closed

1. Detect | 2. Review | 3. Investigate | **4. Resolve**

Progress of each alert

Detected → assigned → investigation → validation → closed.

Available feature

From count to closure: six steps, four modules

–2 u. · $1,040
difference and value

2 controls
recount and approval before adjusting

Available feature

How much is lost, where and why

1 **Shrink vs. target**

Total, as % of sales and avoidable.

2 **By type and area**

Operational, commercial, damage, adjustments.

3 **Products and causes**

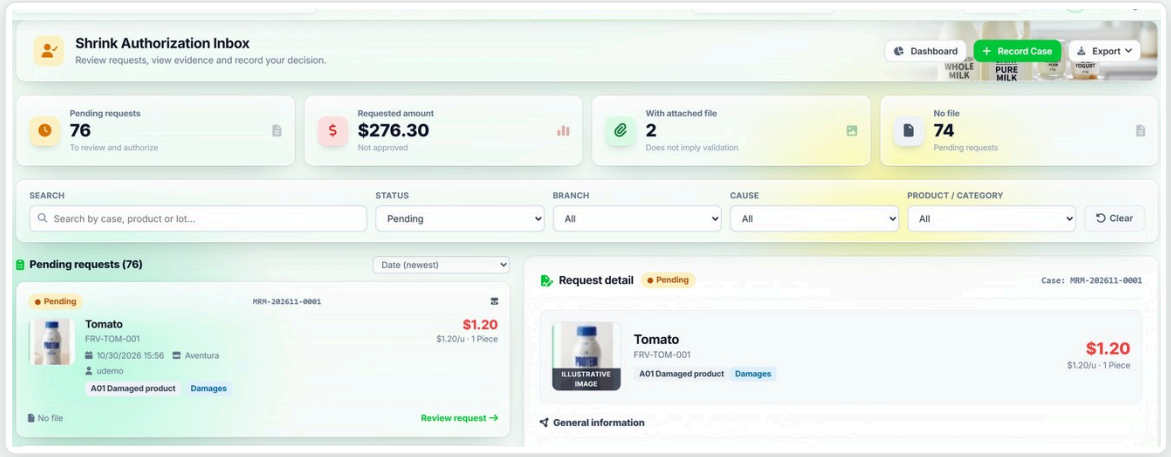

Top 10 and main causes.

4 **By branch**

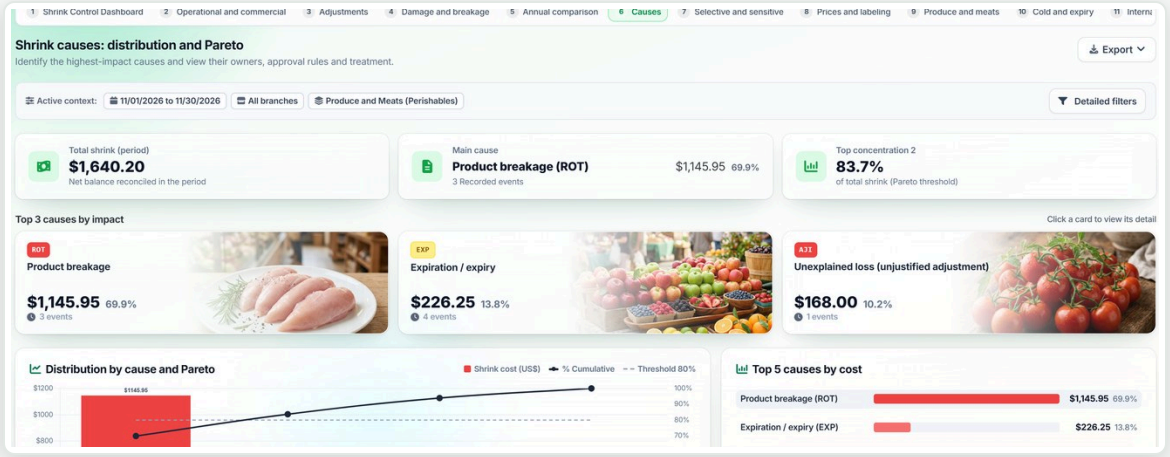

Trend against the previous period.

Available feature

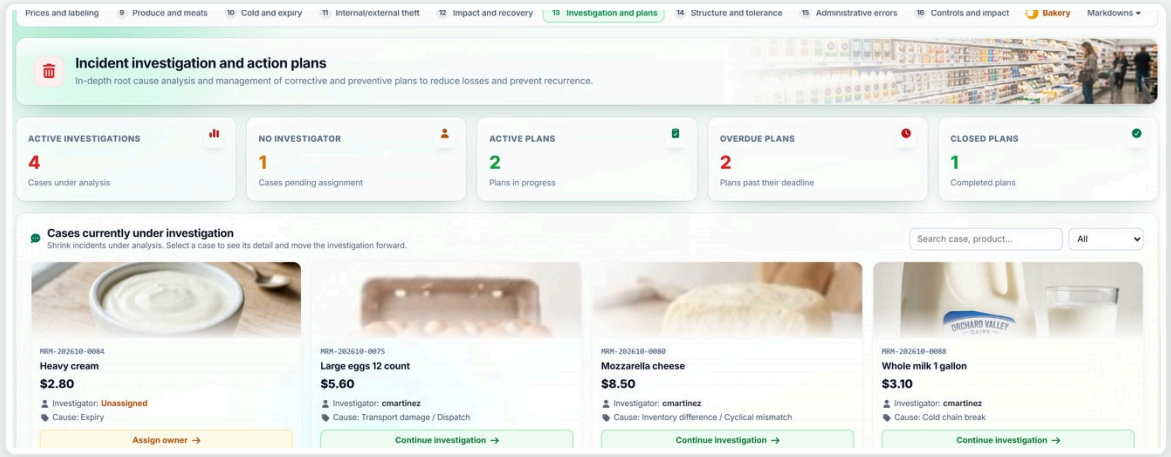

Approval, causes, investigation and prevention

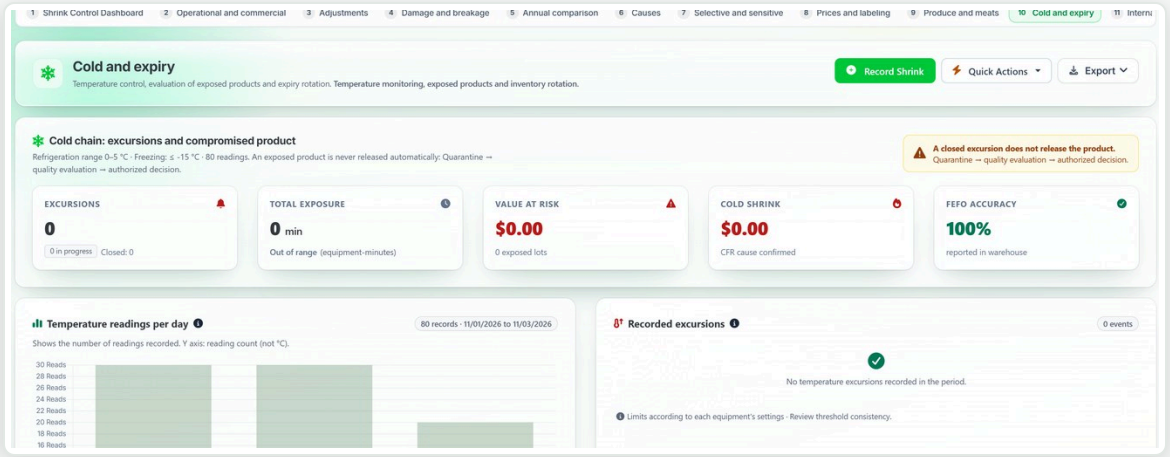

Approvals

Causes and Pareto

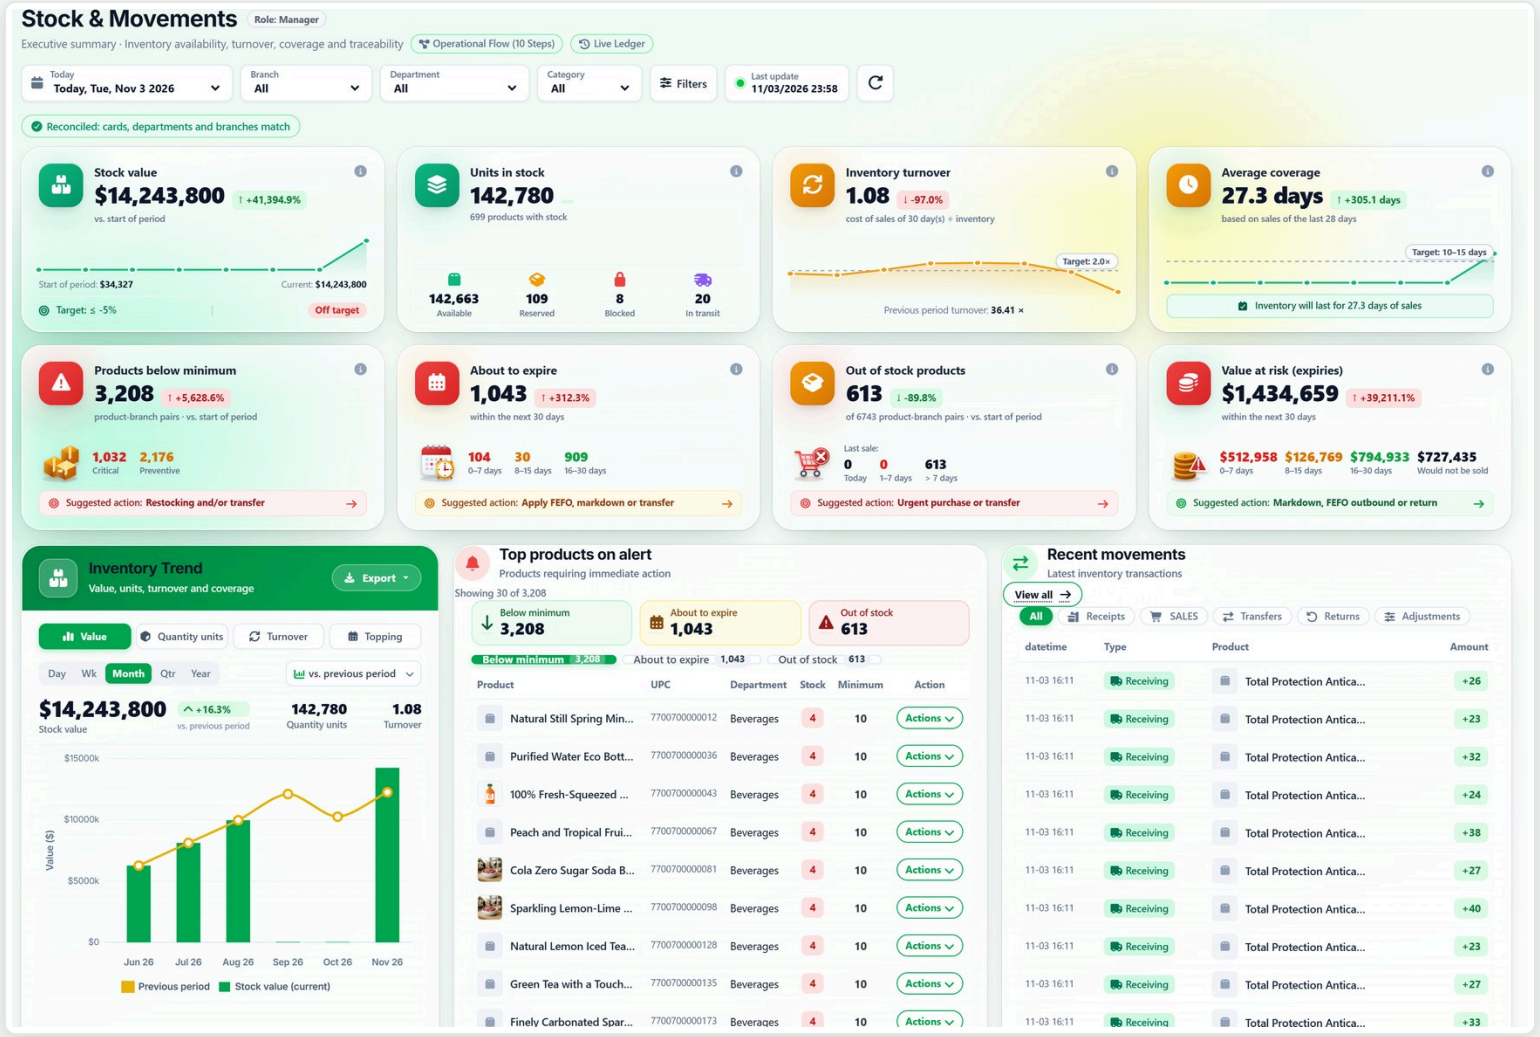

Investigations and action plans

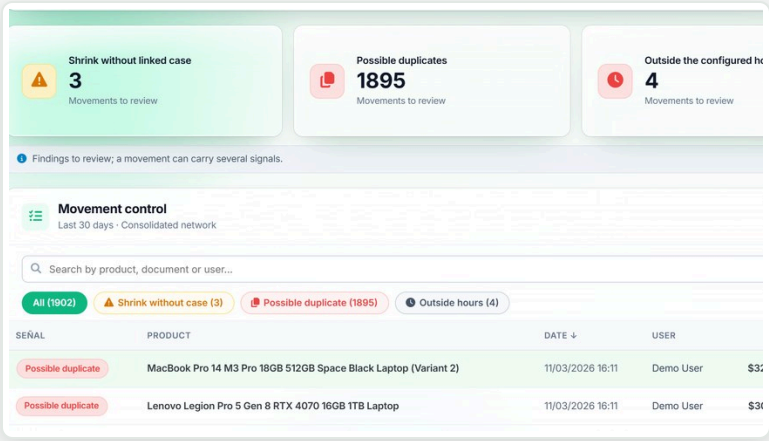

Expiry prevention (FEFO)

Available feature

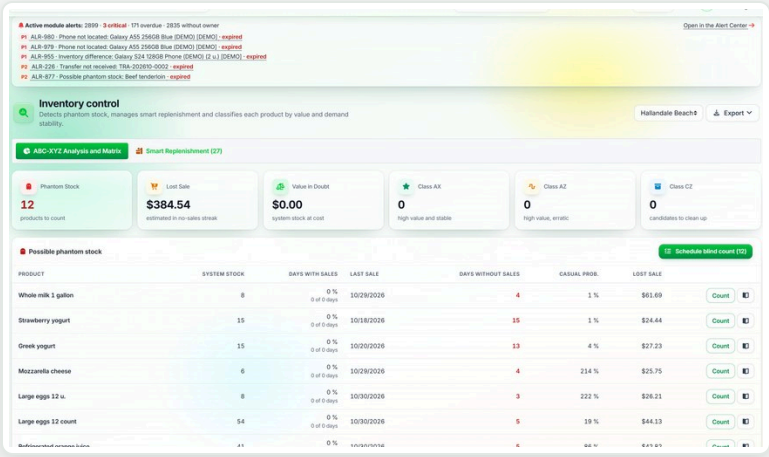

What is on hand, what it is worth and what is at risk

Valuated Inventory Ledger

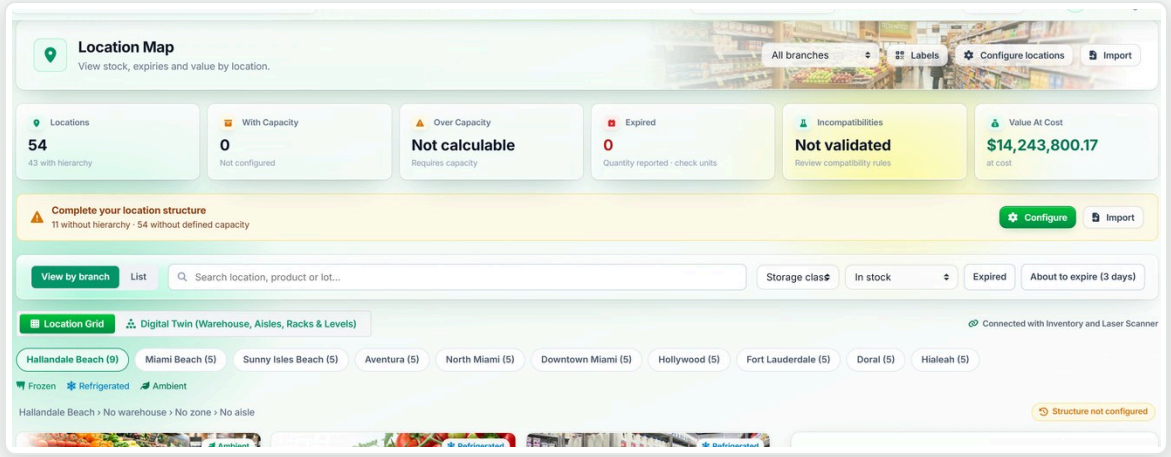

Inventory control

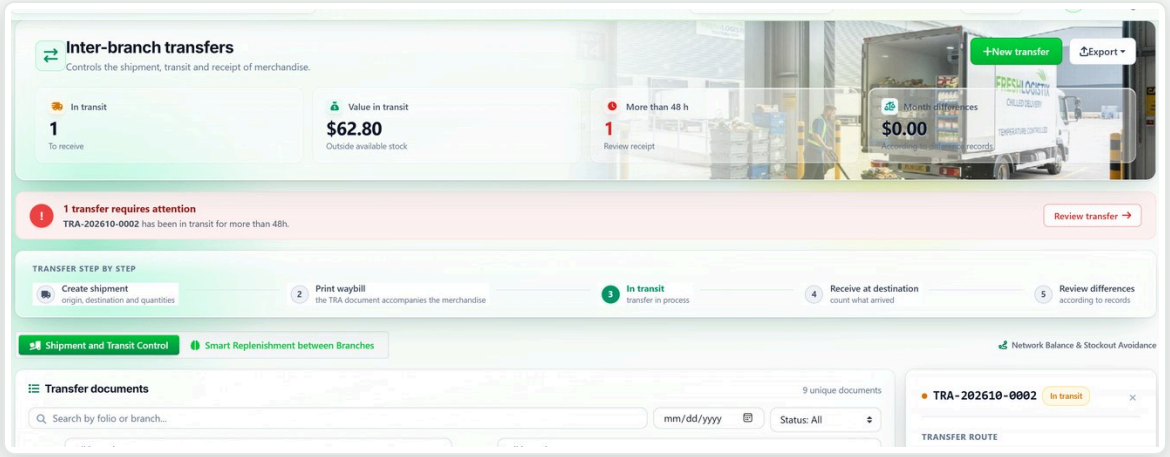

Available feature

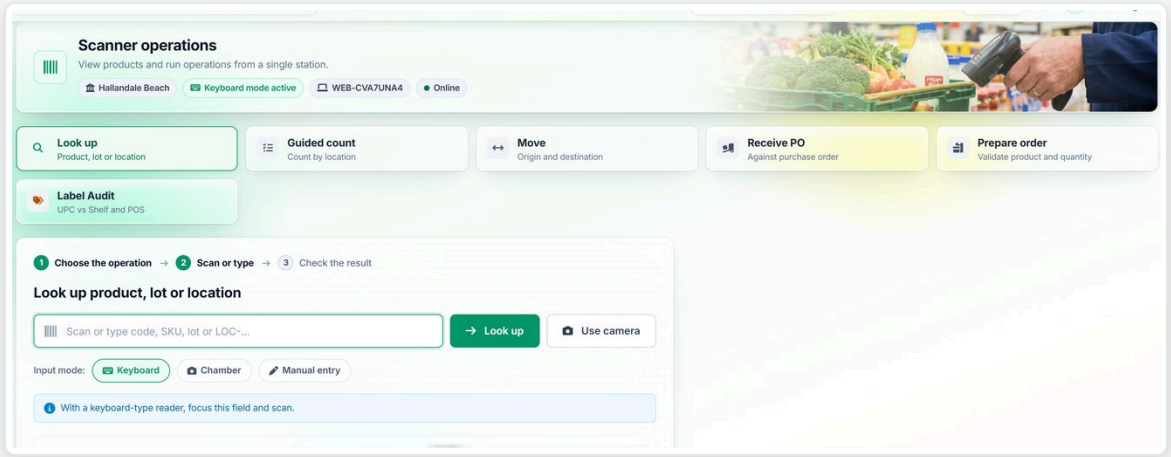

Locations, transfers, counts and scanning

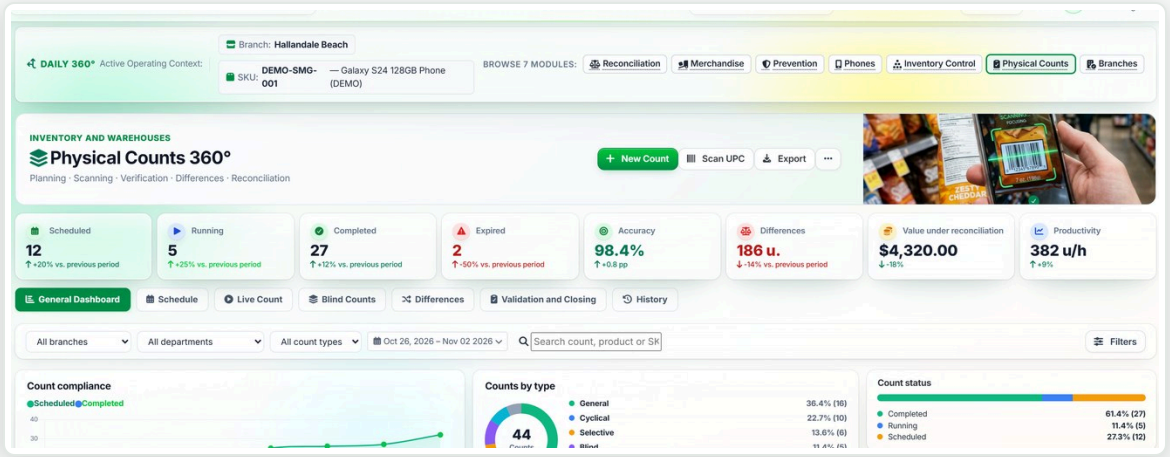

Location map

Store-to-store transfers

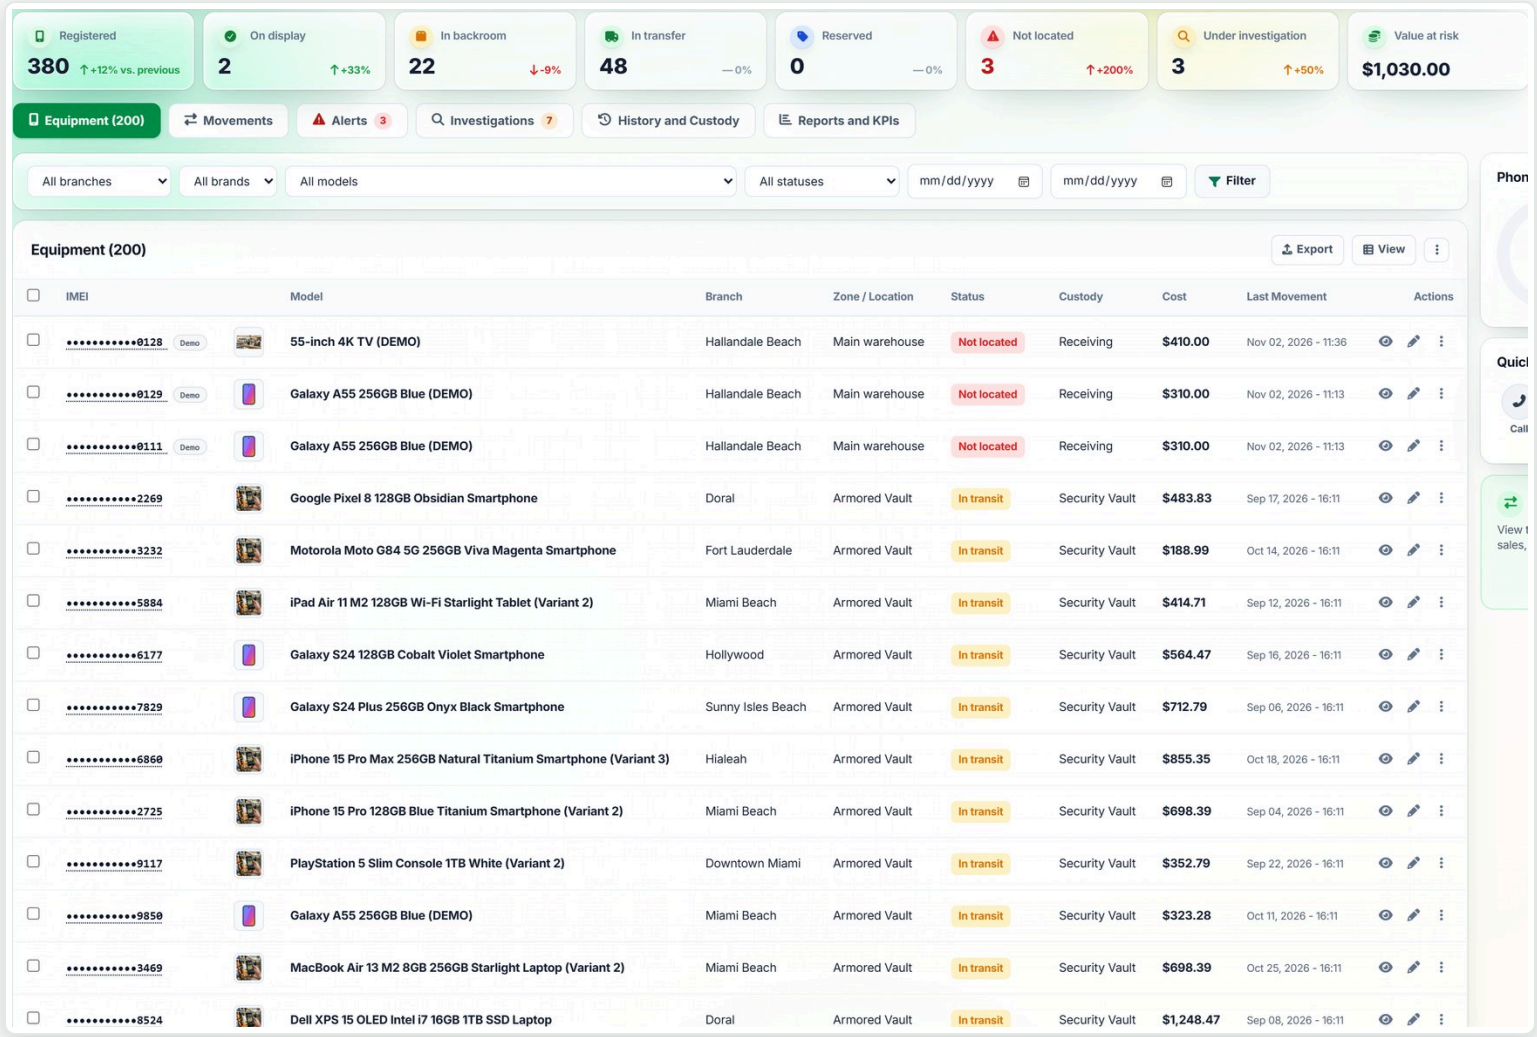

Scanner operations

Physical Inventory Counts

Available + in development

High-value products, controlled unit by unit

1 Custody by IMEI

Location, status and owner of each device.

2 Not located

Flagged and sent to investigation.

3 Sensitive counts

Tasks with due dates; overdue ones in view.

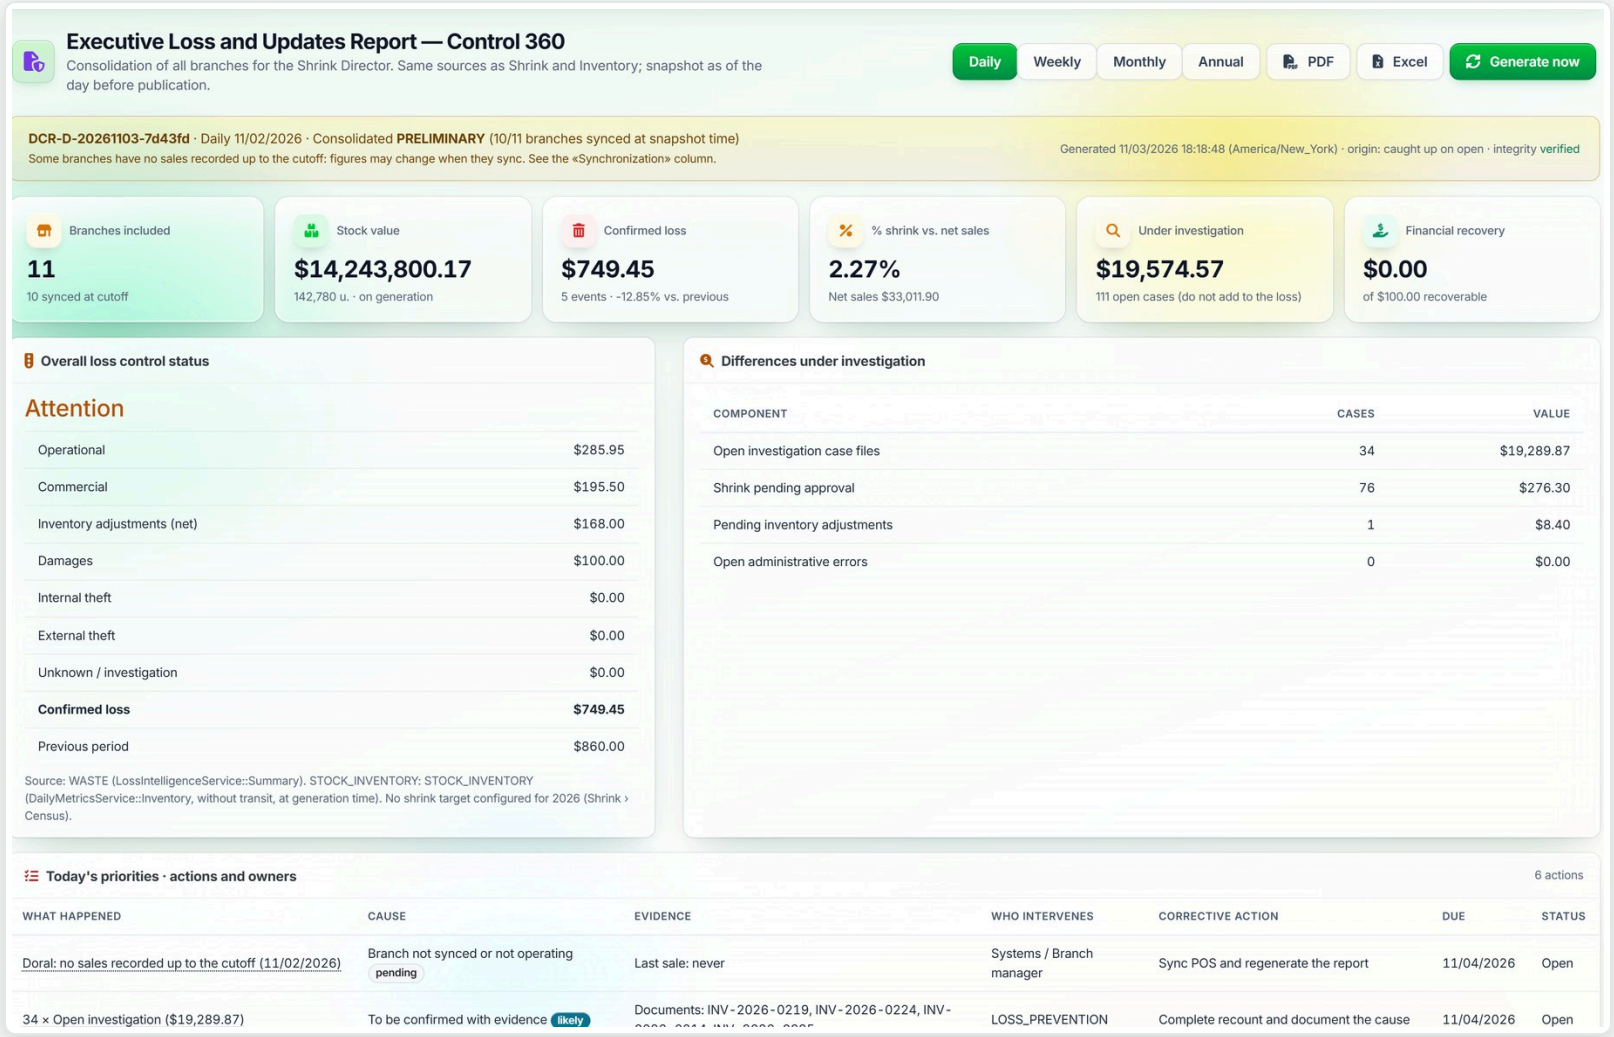

4 Evidence in the case

Notes, photos and CCTV references.

In development: header KPIs of the Loss Prevention Center.

Available feature

Executive Loss Report: a daily snapshot for leadership

Executive Loss and Updates Report — Control 360

Consolidation of all branches for the Shrink Director. Same sources as Shrink and Inventory; snapshot as of the day before publication.

Daily | Weekly | Monthly | Annual | PDF | Excel | Generate now

DCR-D-20261103-7d43fd · Daily 11/02/2026 · Consolidated **PRELIMINARY** (10/11 branches synced at snapshot time)
Some branches have no sales recorded up to the cutoff: figures may change when they sync. See the «Synchronization» column.

Generated 11/03/2026 18:18:48 (America/New_York) · origin: caught up on open · integrity verified

Branches included	Stock value	Confirmed loss	% shrink vs. net sales	Under investigation	Financial recovery
11	$14,243,800.17	$749.45	2.27%	$19,574.57	$0.00
10 synced at cutoff	142,780 u. · on generation	5 events · -12.85% vs. previous	Net sales $33,011.90	111 open cases (do not add to the loss)	of $100.00 recoverable

Overall loss control status

Attention

Operational	$285.95
Commercial	$195.50
Inventory adjustments (net)	$168.00
Damages	$100.00
Internal theft	$0.00
External theft	$0.00
Unknown / investigation	$0.00
Confirmed loss	**$749.45**
Previous period	$860.00

Source: WASTE (LossIntelligenceService::Summary). STOCK_INVENTORY: STOCK_INVENTORY (DailyMetricsService::Inventory, without transit, at generation time). No shrink target configured for 2026 (Shrink › Census).

Differences under investigation

COMPONENT	CASES	VALUE
Open investigation case files	34	$19,289.87
Shrink pending approval	76	$276.30
Pending inventory adjustments	1	$8.40
Open administrative errors	0	$0.00

Today's priorities · actions and owners — 6 actions

WHAT HAPPENED	CAUSE	EVIDENCE	WHO INTERVENES	CORRECTIVE ACTION	DUE	STATUS
Doral: no sales recorded up to the cutoff (11/02/2026)	Branch not synced or not operating (pending)	Last sale: never	Systems / Branch manager	Sync POS and regenerate the report	11/04/2026	Open
34 × Open investigation ($19,289.87)	To be confirmed with evidence (likely)	Documents: INV-2026-0219, INV-2026-0224, INV-…	LOSS_PREVENTION	Complete recount and document the cause	11/04/2026	Open

1 Traceable snapshot

States source, time and synced stores.

2 Loss by component

Operational, commercial, adjustments, theft.

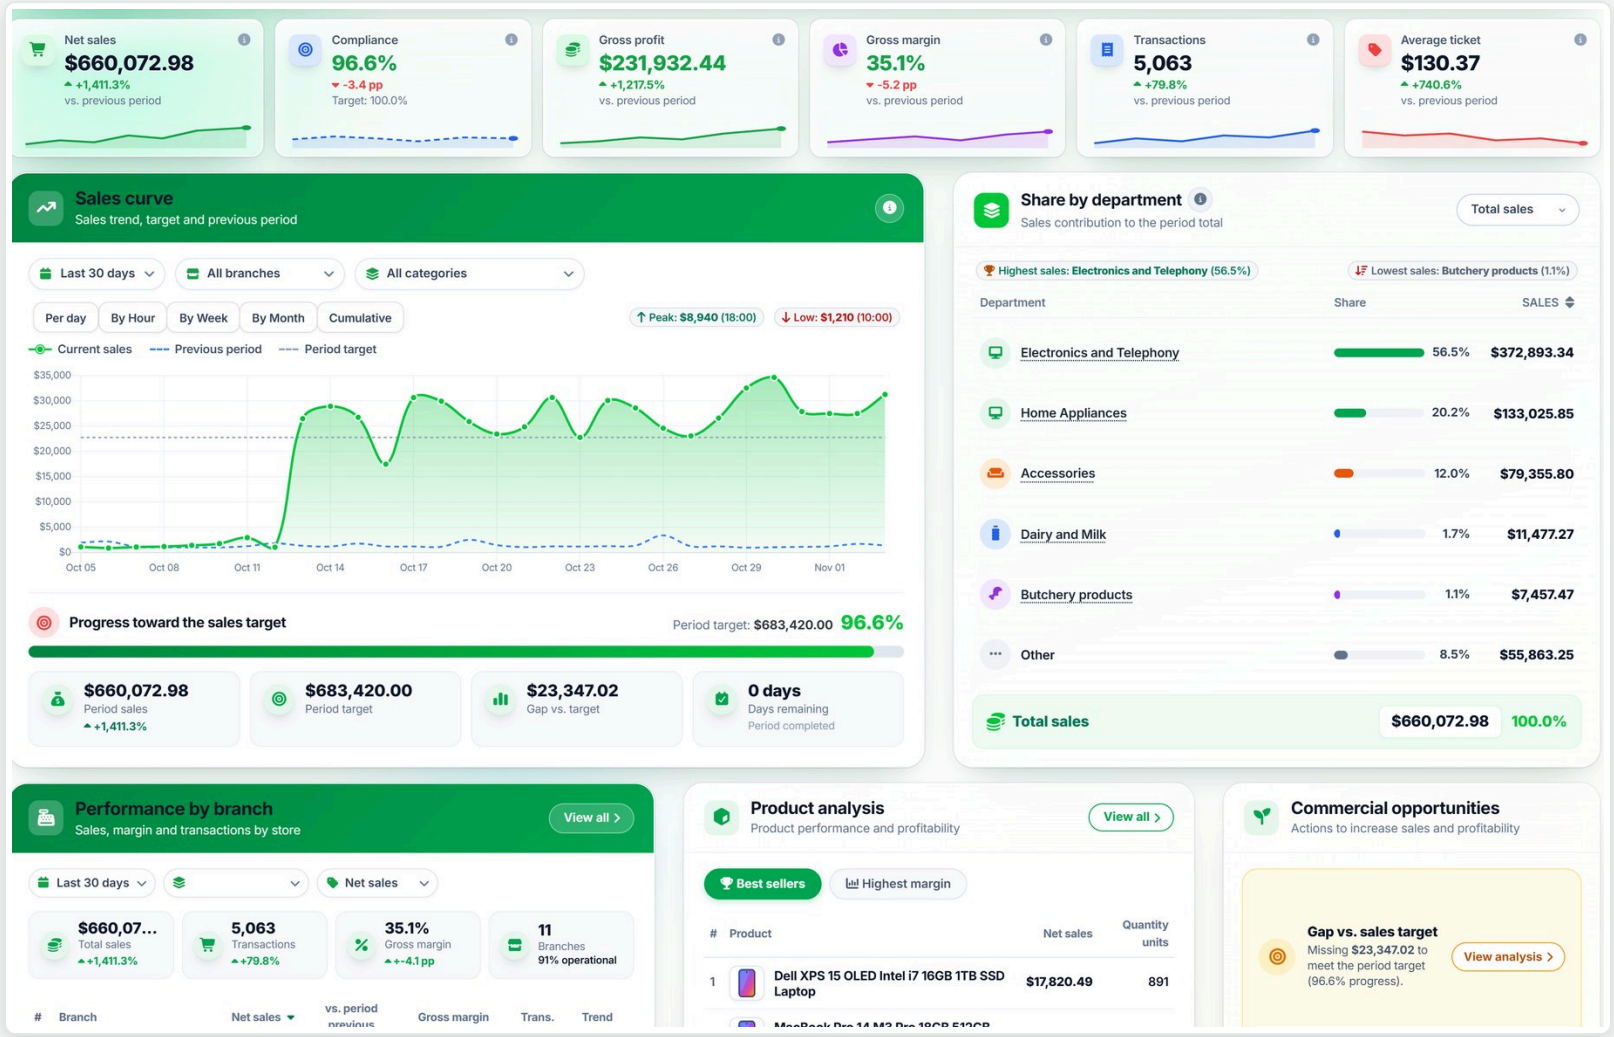

3 Priorities of the day

What happened, cause, evidence and owner.

Daily · weekly · monthly · yearly · PDF and Excel

Available feature

What sells, what it earns and where the gap is

1 Sales and margin

Against previous period and target.

2 Curve and progress

Daily evolution and gap to target.

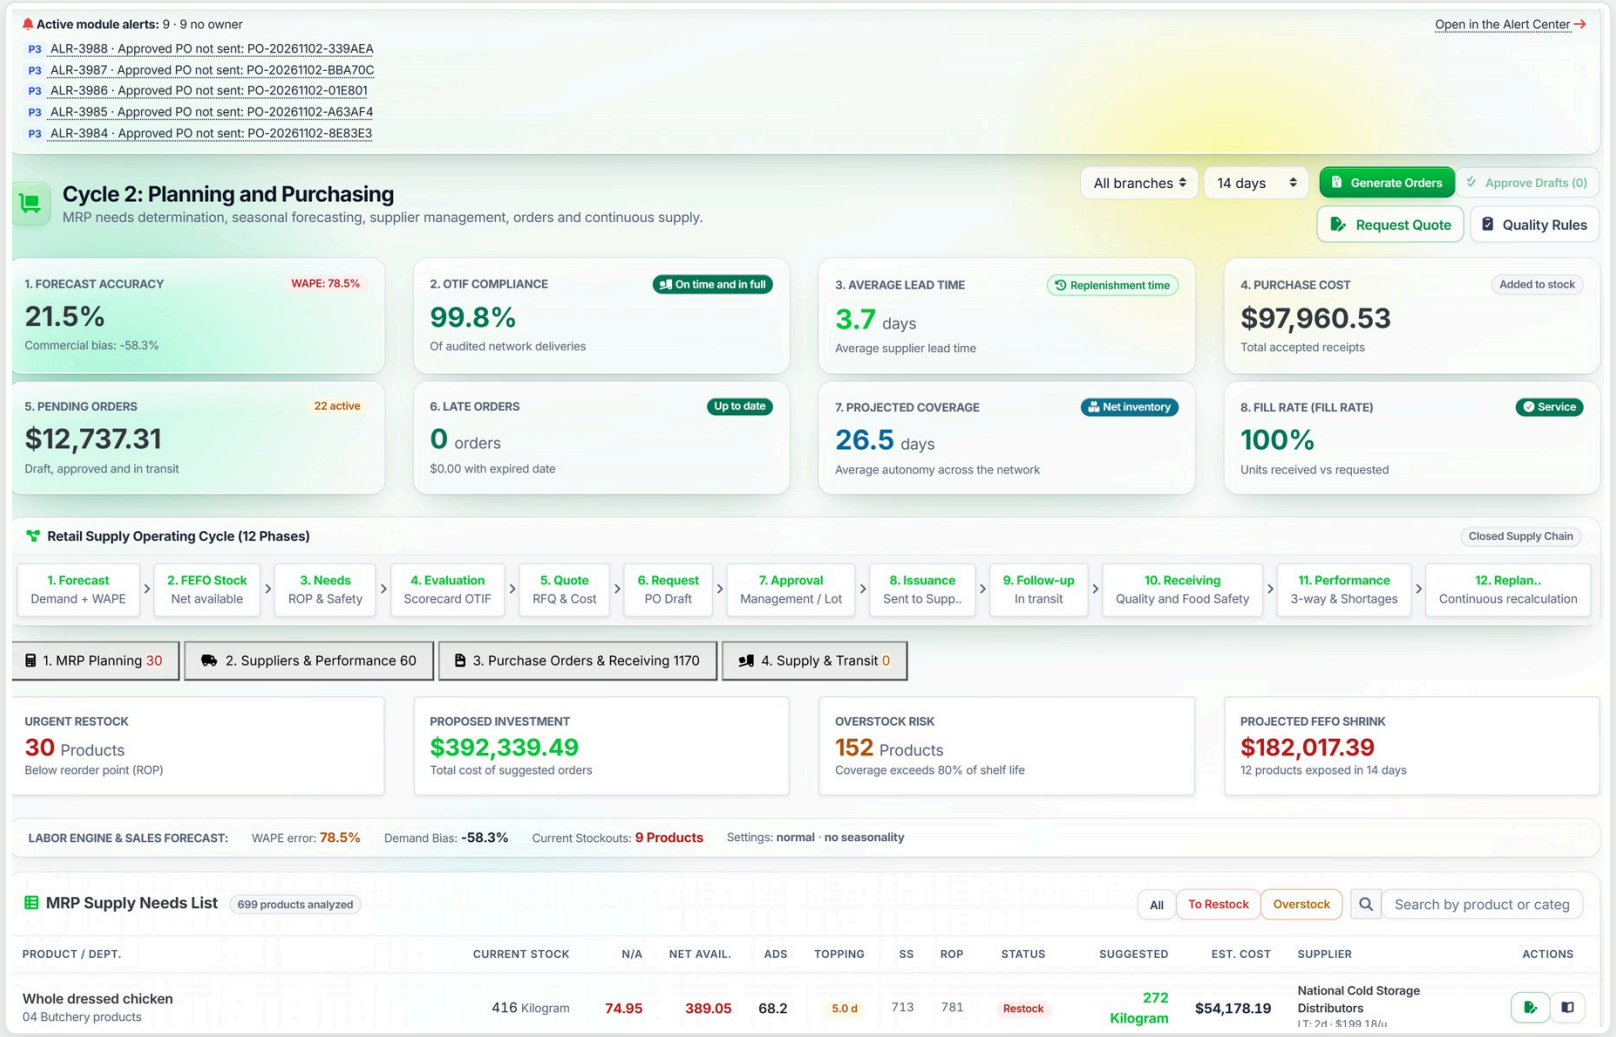

3 Departments

What drives sales and what does not.

Sales reconciled with cost and inventory movement.

Available feature

From need to purchase order, in a 12-phase cycle

1 **MRP needs**

Coverage, safety stock and reorder point.

2 **Orders with approval**

Draft, approval, issue and follow-up.

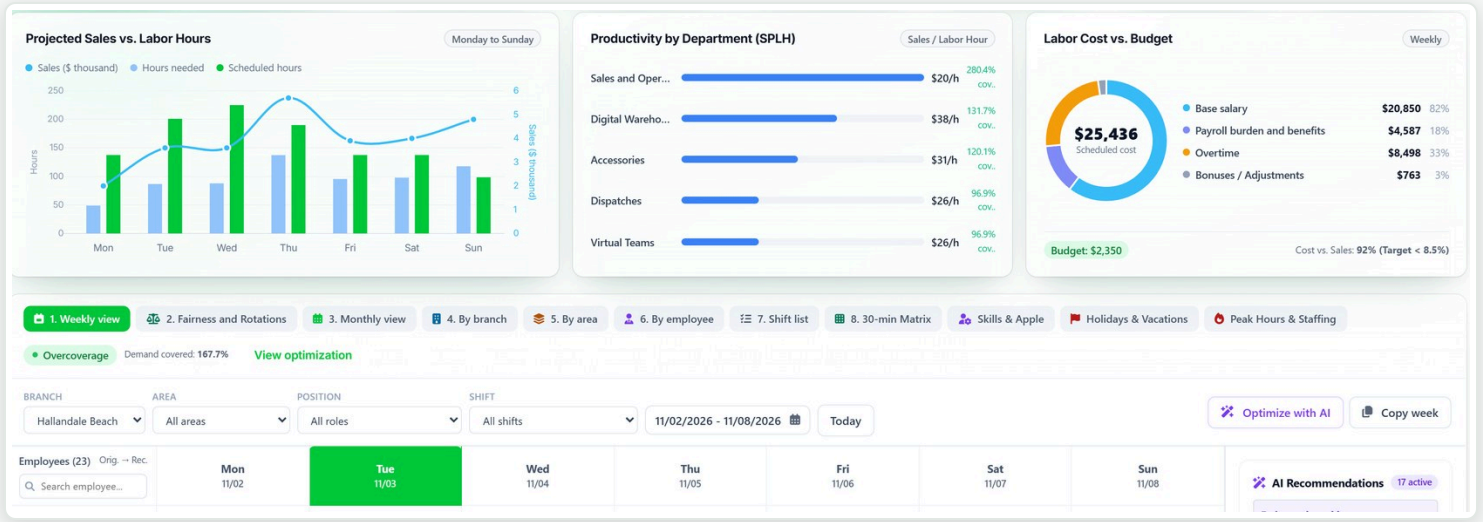

3 **Measured suppliers**

On-time delivery, lead time and fill rate.

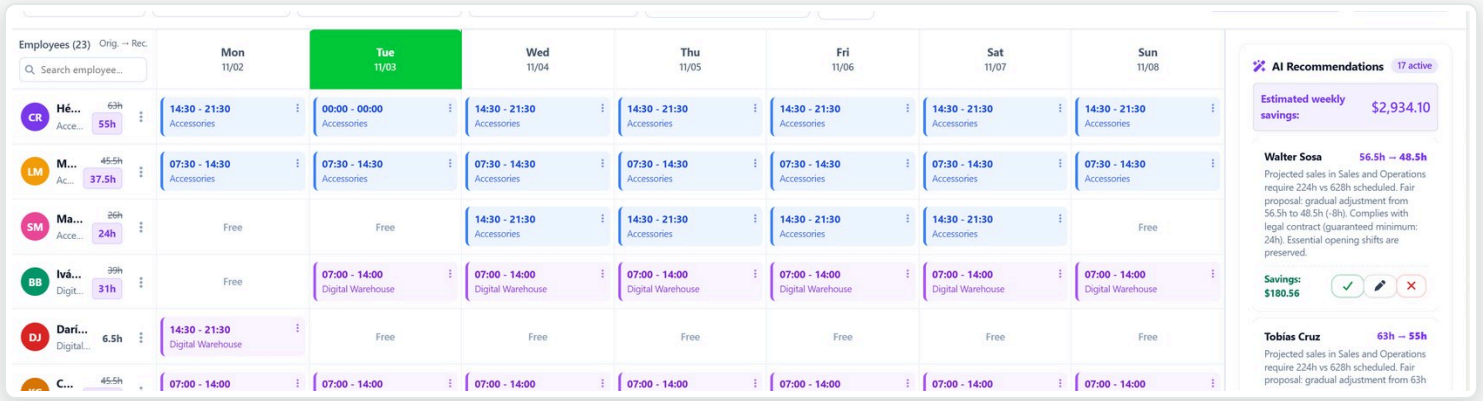

Available feature

Shifts, coverage and labor cost on one board

Projected sales vs. hours, productivity and labor cost

Weekly schedule

1 Demand vs. hours

Projected sales against scheduled hours.

2 Cost vs. budget

Wages, burden and overtime.

3 Coverage by area

Minimum staffing alerts.

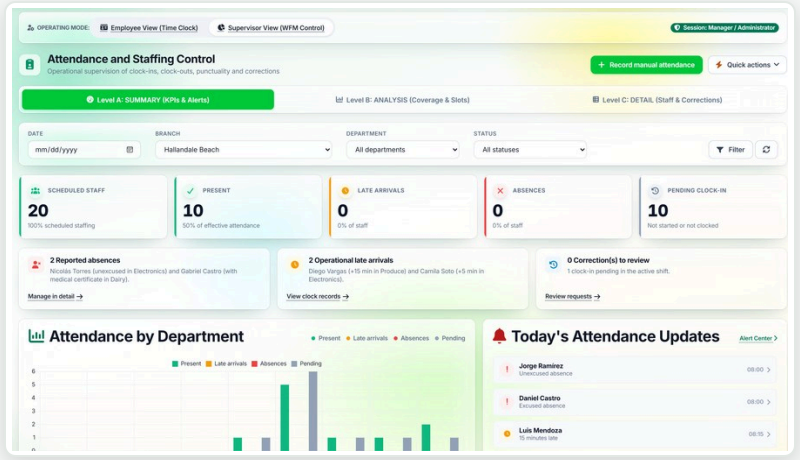

4 Configurable rules

To be validated with legal.

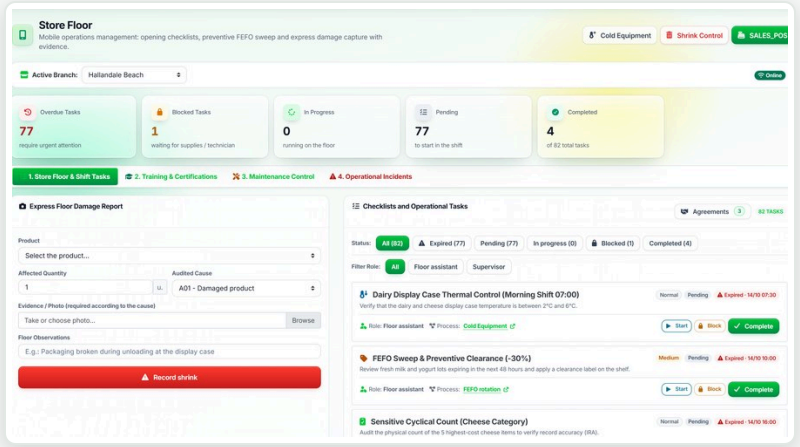

Available + projected

Attendance, tasks and demand-based planning

Attendance and clock-ins

Floor tasks

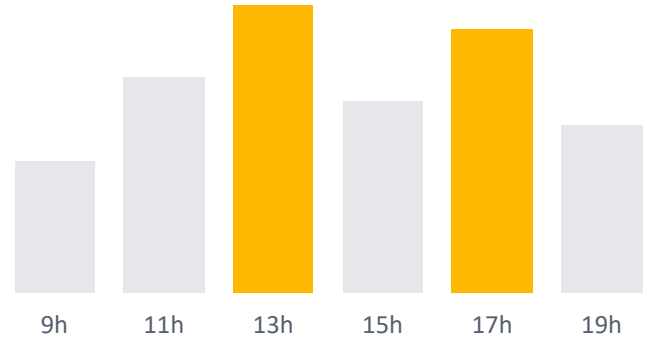

Available today

- Scheduled and worked hours
- Late arrivals and absences
- Tasks with owners
- Productivity by department
- Projected sales vs. hours

Projected (concept)

- Time-and-motion study
- Shifts generated from demand

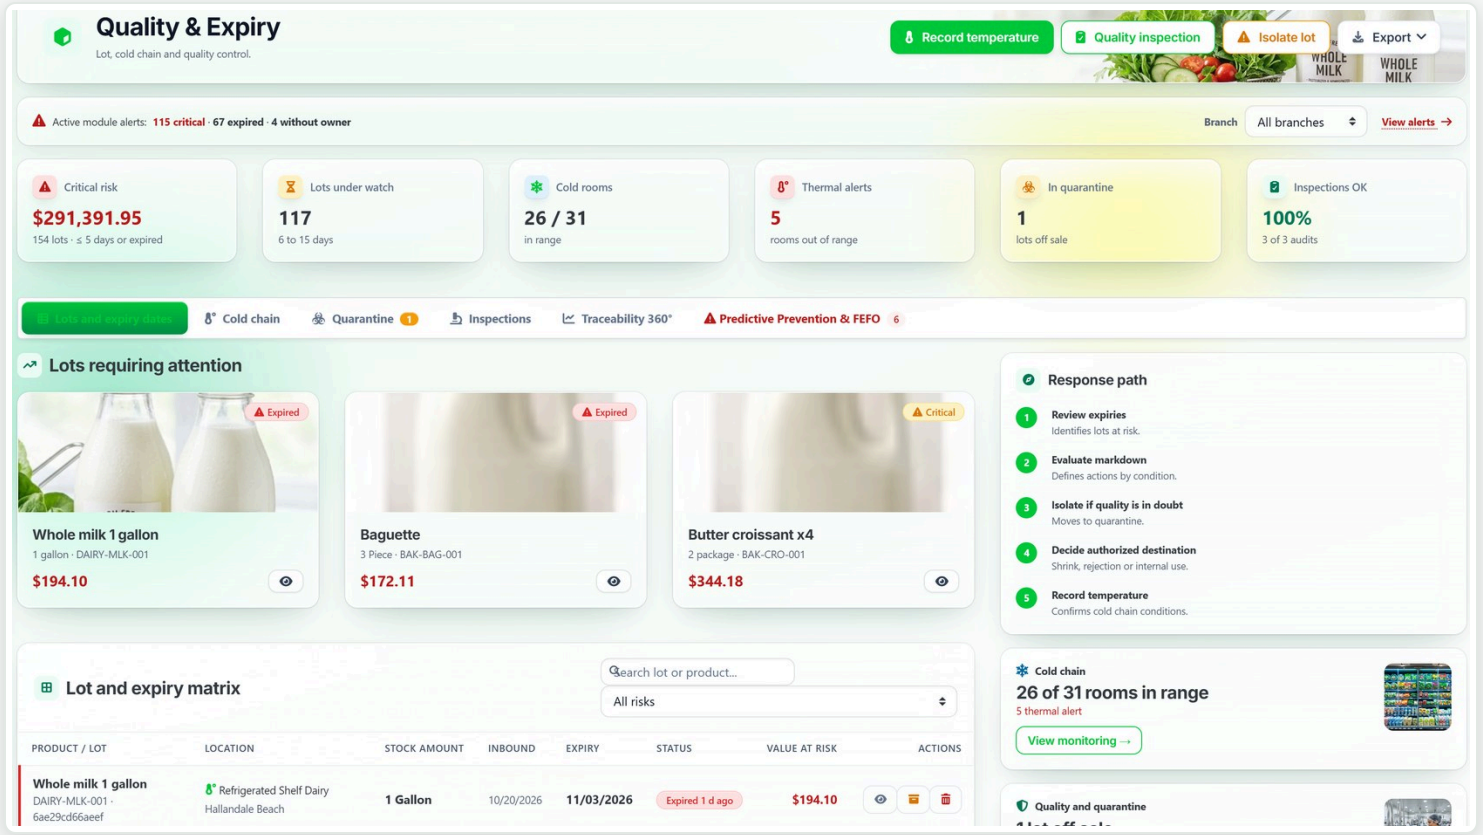

Example: extra staff at peak hours

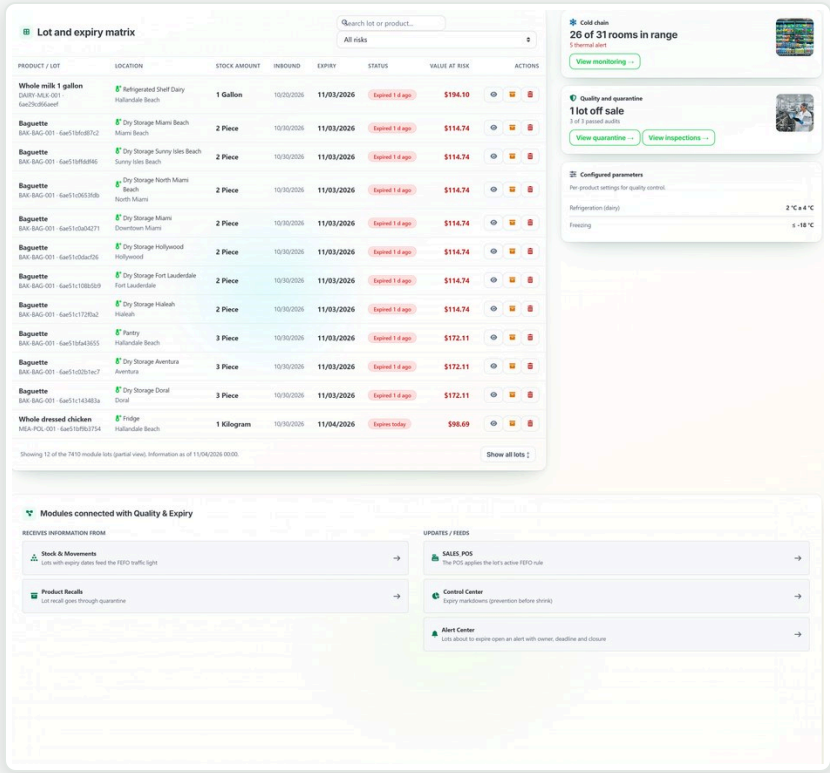

Available feature

Act before the product expires

Close to expiry → Identification → Markdown or isolation → Authorized disposition → Shrink record

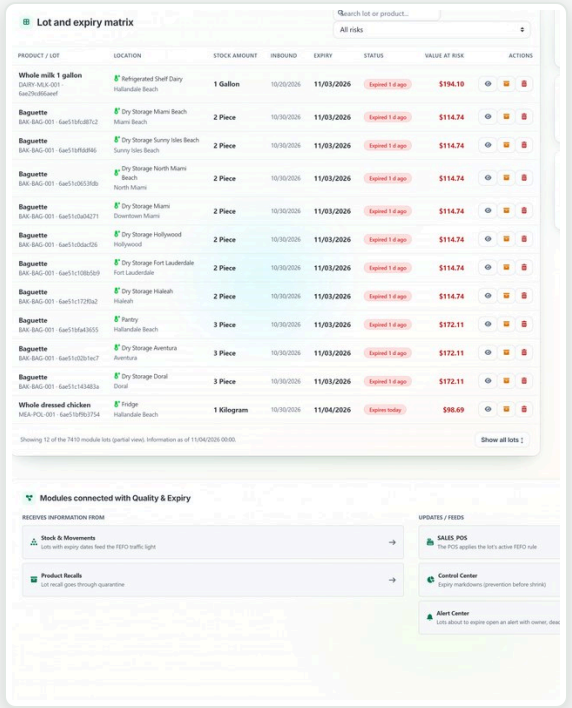

Lot matrix and cold chain

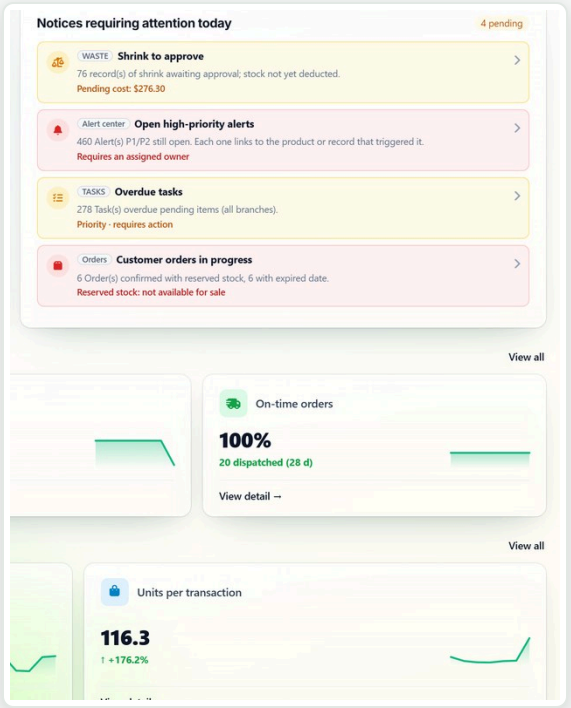

Available feature

From a lot about to expire to an approved shrink record

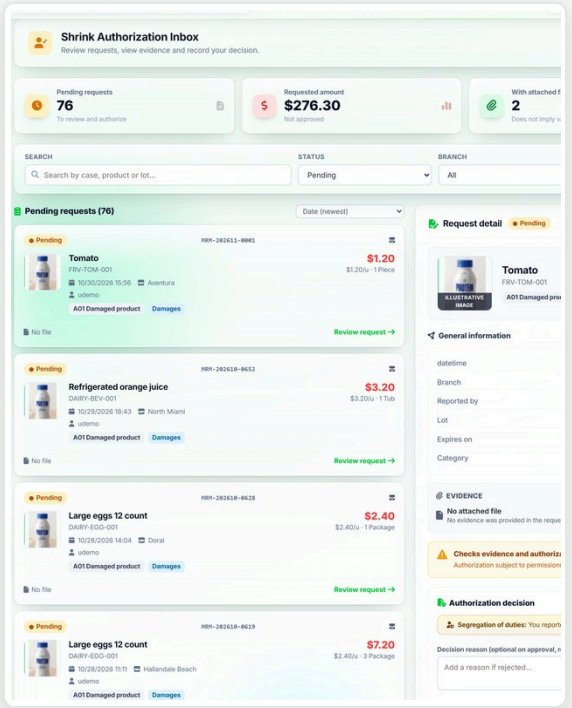

1. Expired lot → 2. Notice with owner → 3. Shrink to approve → **4. Decision and cause**

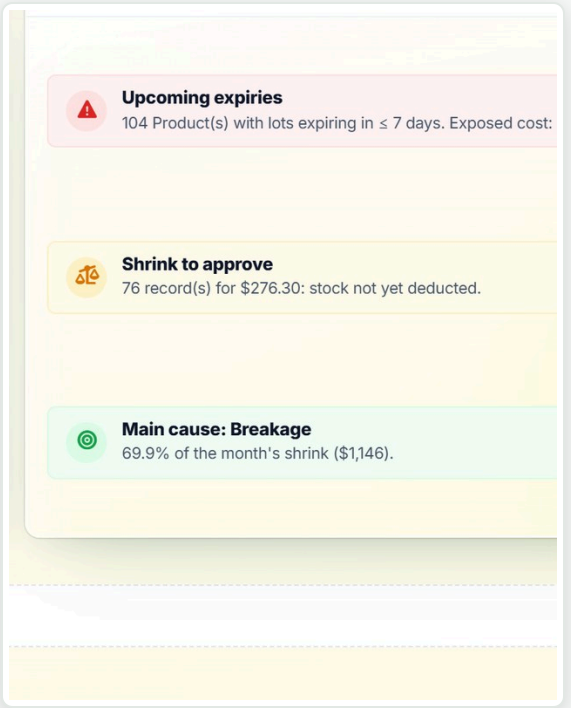

Quality

TODAY

Approvals

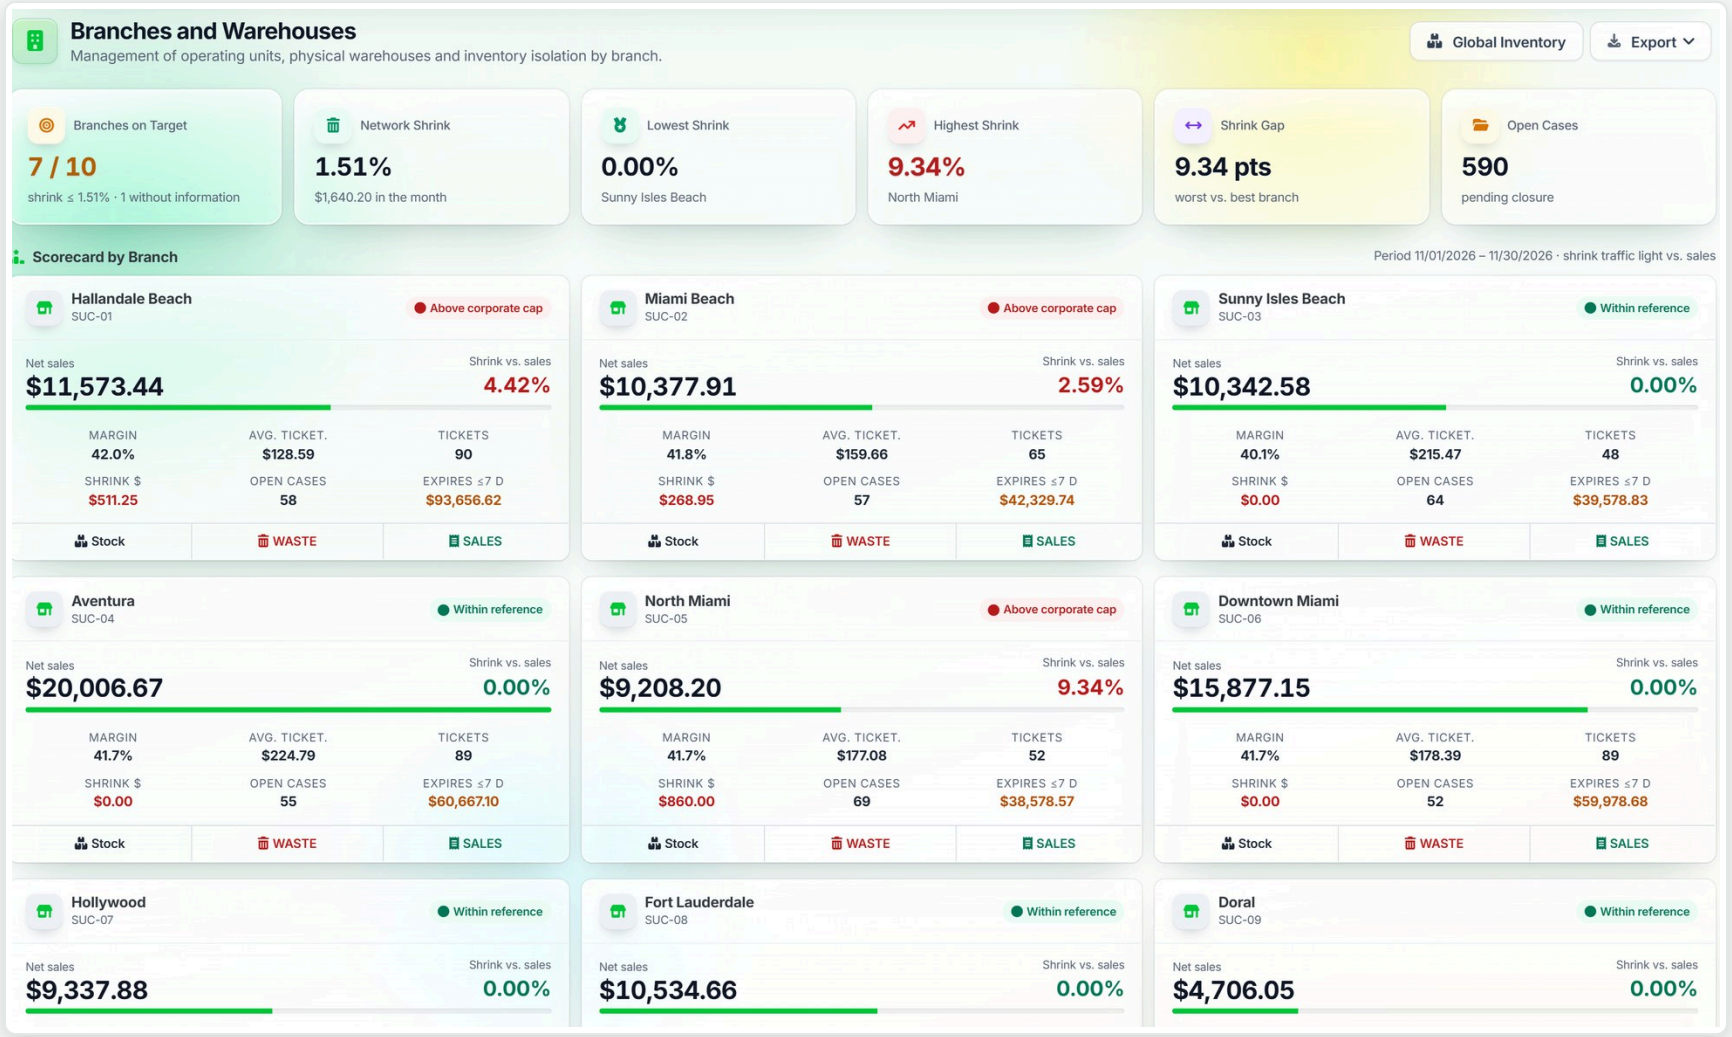

Shrinkage & Waste

One rule: shrink does not reduce stock until someone other than the recorder approves it.

Available feature

Every store, measured with the same KPIs

1 Same metrics

Sales, margin, shrink, cases and expiry.

2 Corporate cap

Stores above it are flagged.

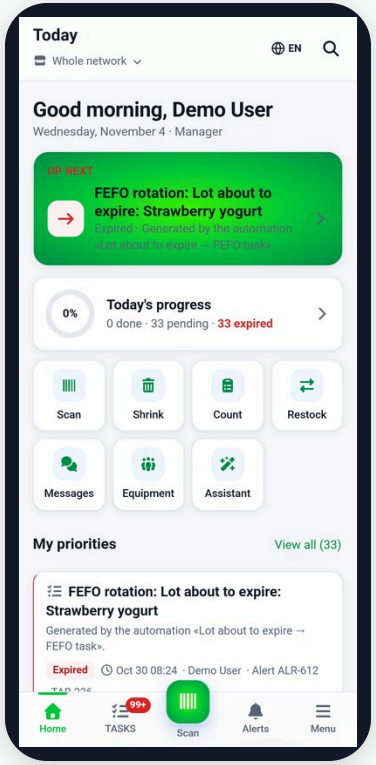

3 From total to detail

From branch to stock, shrink and sales.

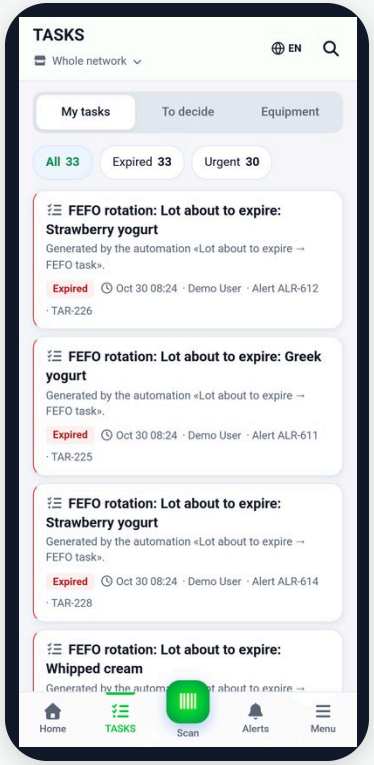

Fictitious demo branches

Available feature

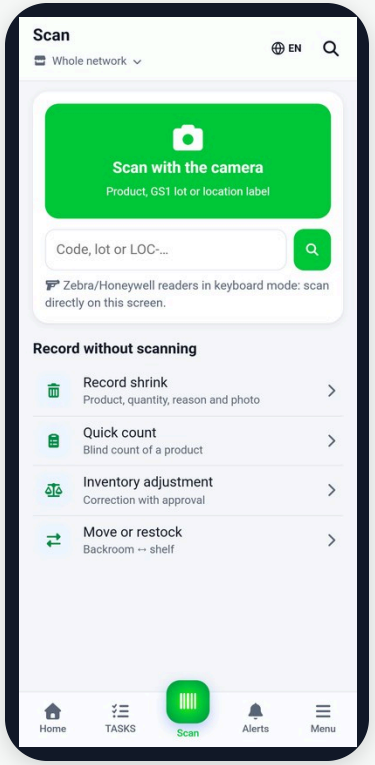

The operation, from the team's phone

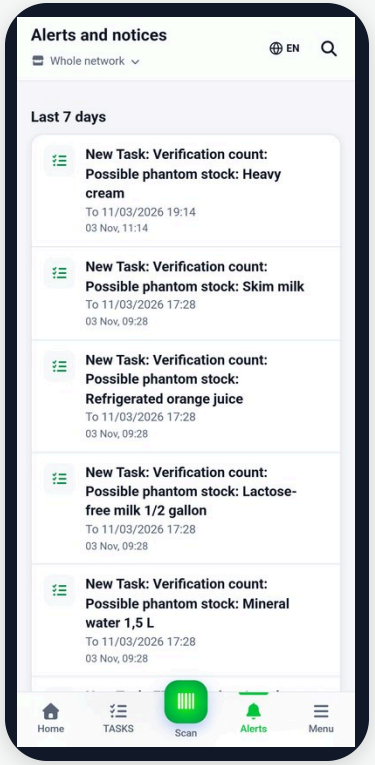

Today

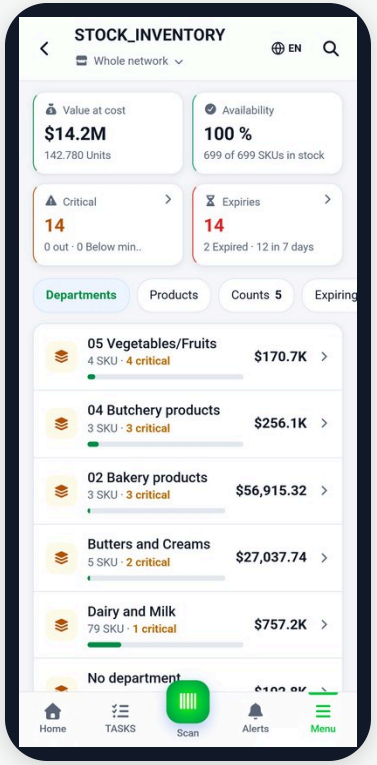

Tasks

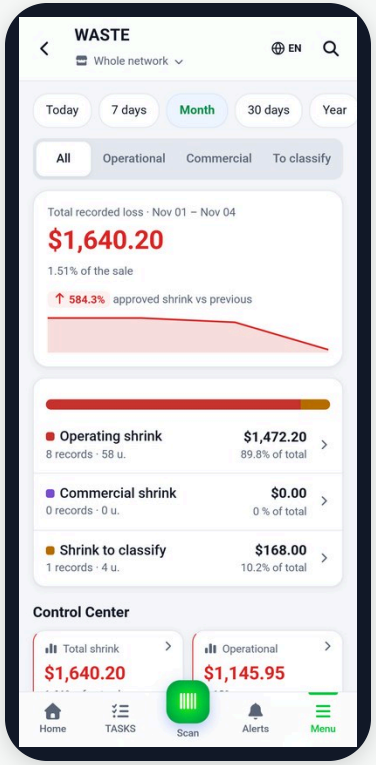

Scanner

Alerts

Inventory

Shrink

Subject to the features enabled for each role. Mobile web app; not published in app stores.

Available feature

One movement feeds every module

Procurement → Inventory	The order receipt enters stock and the ledger.
Sales → Inventory	Each ticket deducts its lot; FEFO at the POS.
Inventory → Shrinkage	Approved shrink adjusts stock and enters the report.
Inventory → Loss Prevention	A count difference opens a case.
Sales → Workforce	Projected sales against scheduled hours.
All → Reports	TODAY, alerts and the executive report read the same data.

MARKET REFERENCE

Available + projected

Capabilities large chains rely on, and where DAILY stands

Common practices in large-scale chains (e.g., Walmart, Costco), based on general public information.

Capability	How DAILY handles it today	Status
Perpetual inventory by store	Stock and valued ledger per branch, with verifiable history	Available
Cycle and high-value counts	Physical counts, sensitive counts and IMEI custody	Available
Loss prevention	Cases, recount and authorization; CCTV as reference only	Partial
Forecast-based replenishment	MRP with reorder point and suggested orders with approval	Partial
Demand-based staffing	Hours vs. projected sales; shifts from demand: not yet	Partial
Freshness and expiry	Lots, FEFO, quarantine and recalls	Available
Leadership dashboards	TODAY and Executive Report; Executive Dashboard in redesign	Partial
Scale and integrations	10 demo branches; import and API	Partial

DAILY is not integrated, partnered or affiliated with the companies mentioned. Trademarks belong to their respective owners.

Available + projected

What exists, what is in development and what is proposed

Available today

- TODAY, Alert Center, Cases
- Stock, ledger, reconciliation, warehouse
- Shrinkage & Waste: board, approval, causes
- Loss Prevention: cases, IMEI, counts
- Executive loss report
- Sales, POS, MRP and suppliers
- Schedules, attendance and tasks
- Quality, FEFO and recalls
- Multi-branch and mobile web
- English and Spanish interface

In development

- Monthly Executive Dashboard (redesign)
- Header KPIs: Loss Prevention, Merchandise Control
- Workflow engine (no UI yet)
- Unified Action Center
- Expired-lot blocking at POS (rule inactive)
- Live POS integration (today import and API)

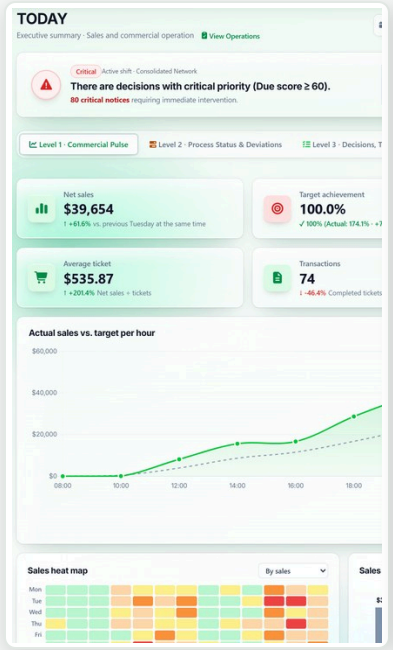

Proposed

- Occupational health and safety
- Time-and-motion study
- Shifts generated from demand
- Automatic cold-chain sensors
- CCTV integration
- App-store mobile app

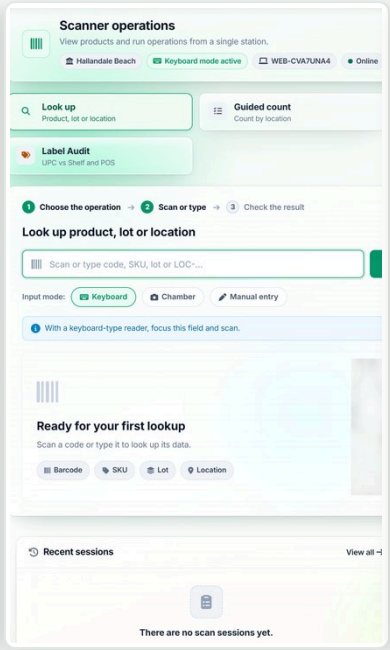

Illustrative scenario

A day with DAILY

07:00 09:00 11:00 13:00 15:00 18:00

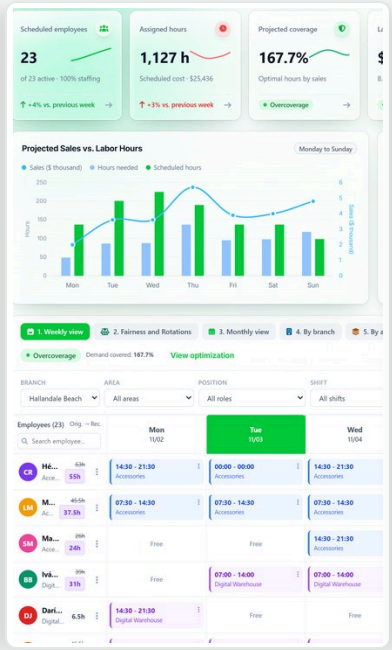

Start of operations

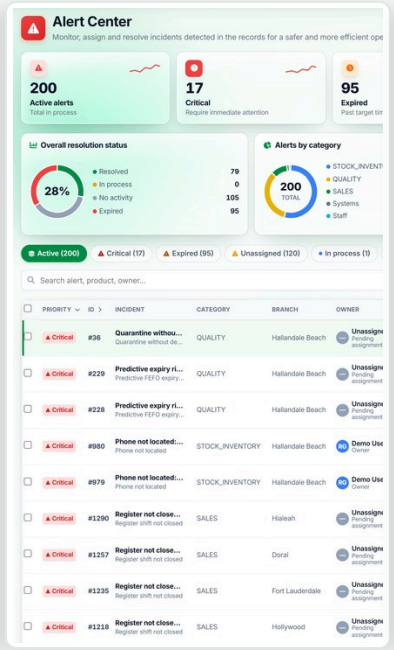

Receiving and scanning

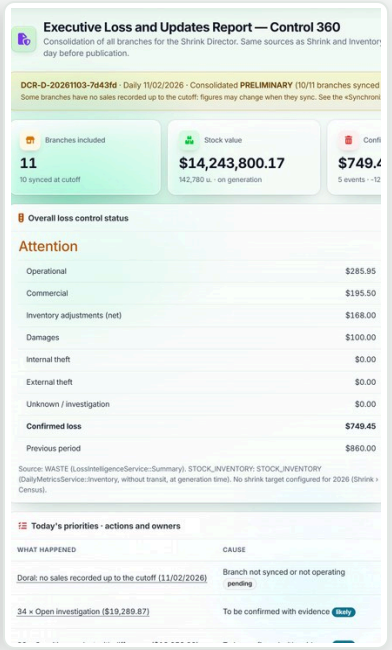

Inventory at risk

Shifts and coverage

Alert review

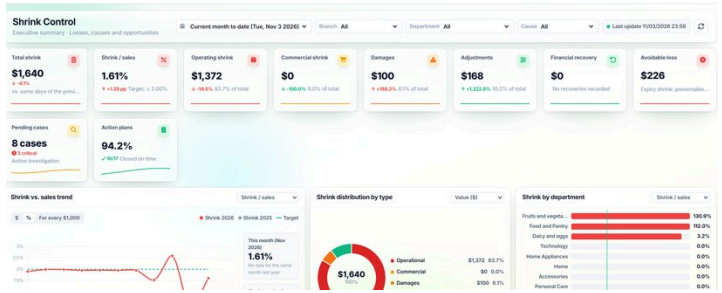

Daily report

Illustrative scenario.

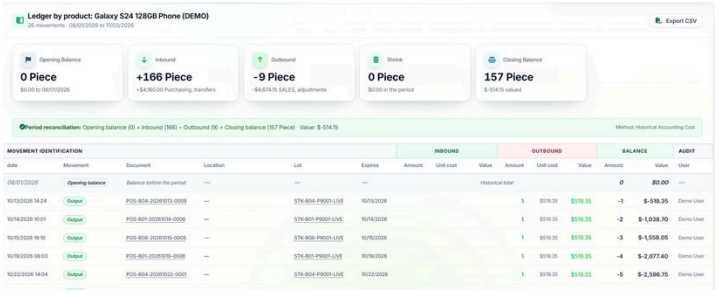

Available feature

Six benefits, six real tools

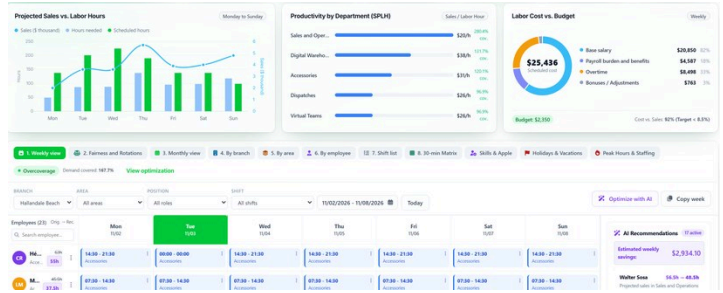

Loss reduction

Shrinkage and Loss Prevention

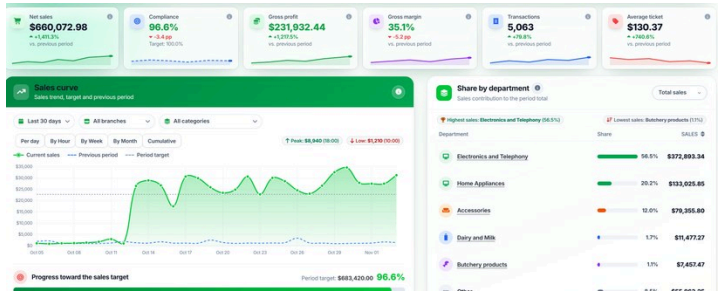

End-to-end traceability

Ledger and Reconciliation

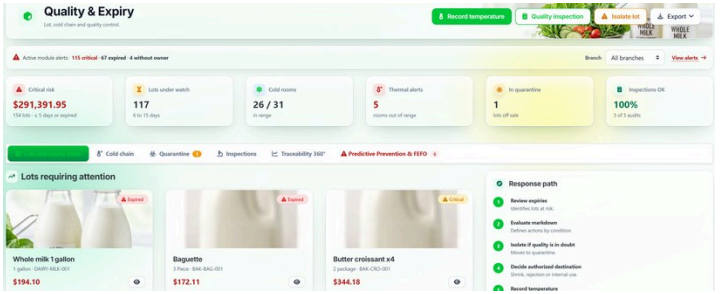

Team productivity

Workforce Operations

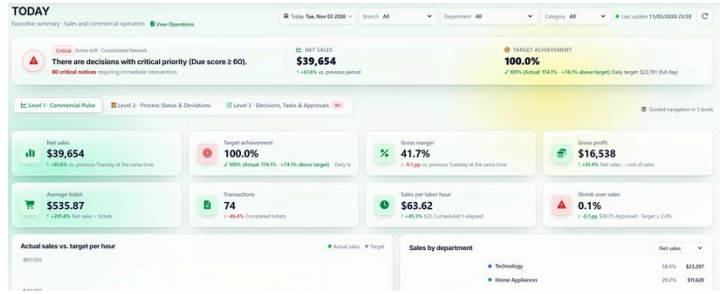

Financial control

Sales and Loss report

Expiration prevention

Quality and FEFO

KPI-driven decisions

TODAY and alerts

Illustrative scenario

From scattered records to operational control

Before

- Separate records
- Manual validations
- Differences at month end
- Cases with no owner

With DAILY

- One stock ledger
- Traceability by document
- Differences when counting
- Cases with owner and deadline

FINANCIAL IMPACT

Illustrative scenario

Half a point of shrinkage: $5,000 a month in this example

$1,000,000

monthly sales in the example

$20,000 → $15,000

estimated monthly loss

$5,000

estimated monthly difference

Illustrative example. Does not represent real results or guarantee savings.

Four ways to start working together

SaaS licensing

Subscription by branches, users and modules

Enterprise pilot

One or two stores, measured against a baseline

Multi-branch rollout

Deployment by stages and regions

Strategic partnership

Joint development of proposed modules

Terms and pricing are defined after the assessment.

A 60-minute demo built around your questions

10 min	TODAY and Alert Center
15 min	Case 1: inventory difference
10 min	Case 2: expiration and shrinkage
10 min	Sales, procurement and workforce
15 min	Client questions

What we need

- One hour with operations, inventory and loss prevention
- Your top three problems
- Optional: an anonymized data sample for the assessment

From assessment to expansion, in eight stages

1 **Operational assessment**

2 **Scope definition**

3 **Configuration**

4 **Data load and integration**

5 **Training**

6 **Pilot**

7 **Results measurement**

8 **Branch expansion**

Proposed stages. No client implementations to date.

A 30-day pilot, measured with six KPIs

30

day pilot

Baseline, supported operation and final measurement.

Subject to agreement. No testimonials or prior results.

- **Inventory accuracy**
- **Differences detected and closed**
- **Investigation time**
- **Shrink as % of sales**
- **Expiries handled on time**
- **Task completion**

From this meeting to a decision, in nine weeks
